Preemptive translation notes:

- The raws I found for this series were scanned at a decent size, but they were really washed out, so I had to do much heavier leveling than I'm used to. I think it looks all right though
- I basically had to guess the romanization of all the alien names and stuff, since none were provided. I searched around to see if the author was maybe trying to reference things with some of those names, but I'm pretty sure they're just random alien sounding names he came up with. By the way, "Foa" is always written between quotation marks in the raw too. I don't really know why, but I figured I'd keep it like that
- The character Yuuri speaks with a Kansai accent, which made some of her lines a little tough to translate, but I figured it out. I also tried to give her that same accent that other Kansai-ben characters usually get in translations, but I'm not sure I did it right. You tell me

Its body is

It's shaped
like a human.
And its heart is
that of a god.

Ch.I Avenger

After the
Armageddon...

Human hunting time!
Run away! Or you'll be turned into guinea pigs!
In the early 21st century, mankind was attacked by an enemy known as the "Foa"

The Federation Army was powerless to stop their attack.
Henceforth, the Earth was conquered and control of the territory was divided among the 26 alien races that are part of "Foa".
As such, humans were stripped of all their rights.
They were treated as animals- as mere objects.
We have no use for the old and sick! Just capture those who can withstand labor!
Ge ha ha ha ha!
And so, ten years have passed.

Help! Please, help us!
Traveler!
Shou-chan...
Out of my way
At this rate, everyone in this city will die!
You have a gun, so lend us your power! Please, fight!
H-How can you say that...?
I don't have the time to get involved with this.
Ah!
Tch!

Huh?!
Wh...
What?

Huh? Who the hell are you?
You dare defy us?!
Damn it!
Big sis!

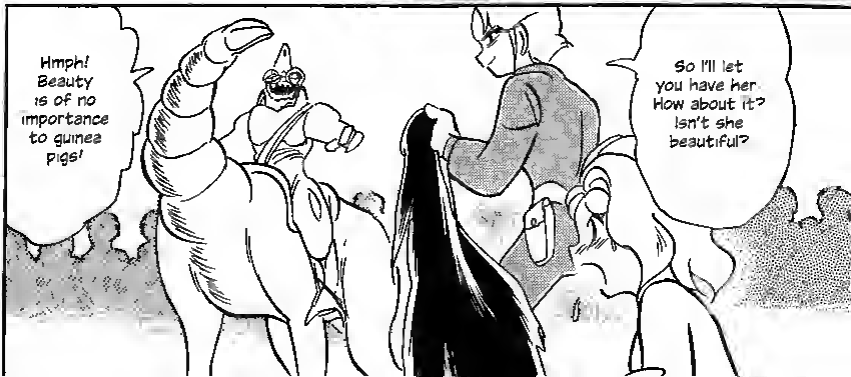
Y-You...
Damn brat!
!
Agh!
Jimmy!
Jimmy!
Kyaa-aah!
Stop it!

!
Kyaaaaaah!
Jimmy!
Jimmy!

You'd just be another corpse in the pile by now.
It was a pointless effort. You wouldn't have made it.
It's your fault that I couldn't save Jimmy!
Why did you stop me? Why?!
Let go! Let go of me!
Ah hah hah hah!
Fu ha ha ha!
Grip
Every-one...
Let's bury him in that hill. That hill where your parents are sleeping with everyone...
Holly... there was nothing you could have done.
How sad. Those two only had each other.

Everyone... Why are you so quiet?
They're treating us like dirt! How can you just stand and watch?
Why don't you fight?!
Guh ha ha ha ha ha ha ha!
They're just not stupid enough to take on a fight they know they can't win!
What about you, outsider? Are you stupid like the girl?
. No
I didn't come here looking for trouble.
I'm here to join your side.
What?
!

Kyah!
This is my woman
But I've grown bored of her...



Hmph! Beauty is of no importance to guinea pigs!
So I'll let you have her. How about it? Isn't she beautiful?

I'll add this woman to the deal
!
Eh?
Well, in that case...
You were about to get yourself killed by jumping at them, anyway
Since I saved your life, I have the right to do with it as I please, don't I?
Spit
I hope you go straight to hell!
You beast!
It's much better to become a willing servant to the aliens! Please, take me with you!
I mean, come on! You can't live as a human being in this day and age.
--That's exactly what I plan on doing-

I'll bring you along!
Very well, then!
So you're willing to sell off your allies for your own sake? I like you!
Gwah hah hah hah! Interesting!
Shou-chan!
!
Uwoooh?!
...so you don't need to think about anything anymore!
And I'll modify your brain...
If you survive the trip, I'll make you my servant! Just like you asked!

Ha ha ha ha ha ha!

Get in here! This is the place for your kind!
We'll let you live until then
Lord Guriba, the leader of our Aek race, will require test subjects soon enough

I'm sorry about your little brother...

You're Holly, yeah?

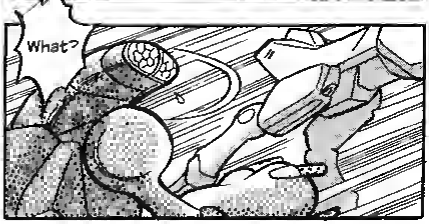
I'm Yuuri Enjouji Yuuri.
And don't worry- we'll getcha outta here.
Eh?
?
We're here on a mission.
—to destroy this castle, y'see.
But before that, we need to rescue all the people inside, of course.
That being said, Shou-chan is pretty rude, eh?
Like, sayin' I'm his woman n'stuff!
An' then he exposed my naked body for everyone to see! I never heard that part of the plan.
Eh?
?
Next time we meet, I'm gonna punch'im good!
Huh? But, by now he's proba-bly.
Ah ha ha ha ha
If he could die from something like that, my life would be much easier

He'll start moving any time now.
And so will our other two team-mates
W-Wait a minute
Who are you people?
We're the Cyber Beast Force .
..."BURN".

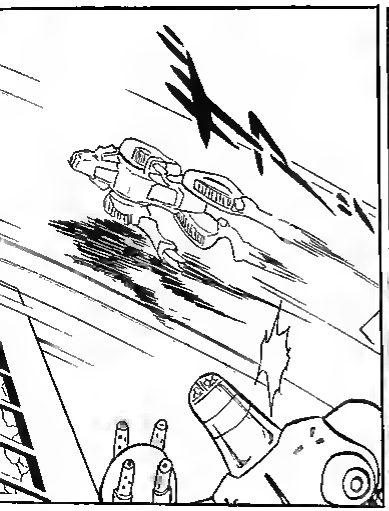
ズズ
What was that?!
I-It's an attack from the outside! But we don't know who the enemy is!
Deploy the mobile machines! We have to fight back!
Enemy unit confirmed! Huh?
What is this?

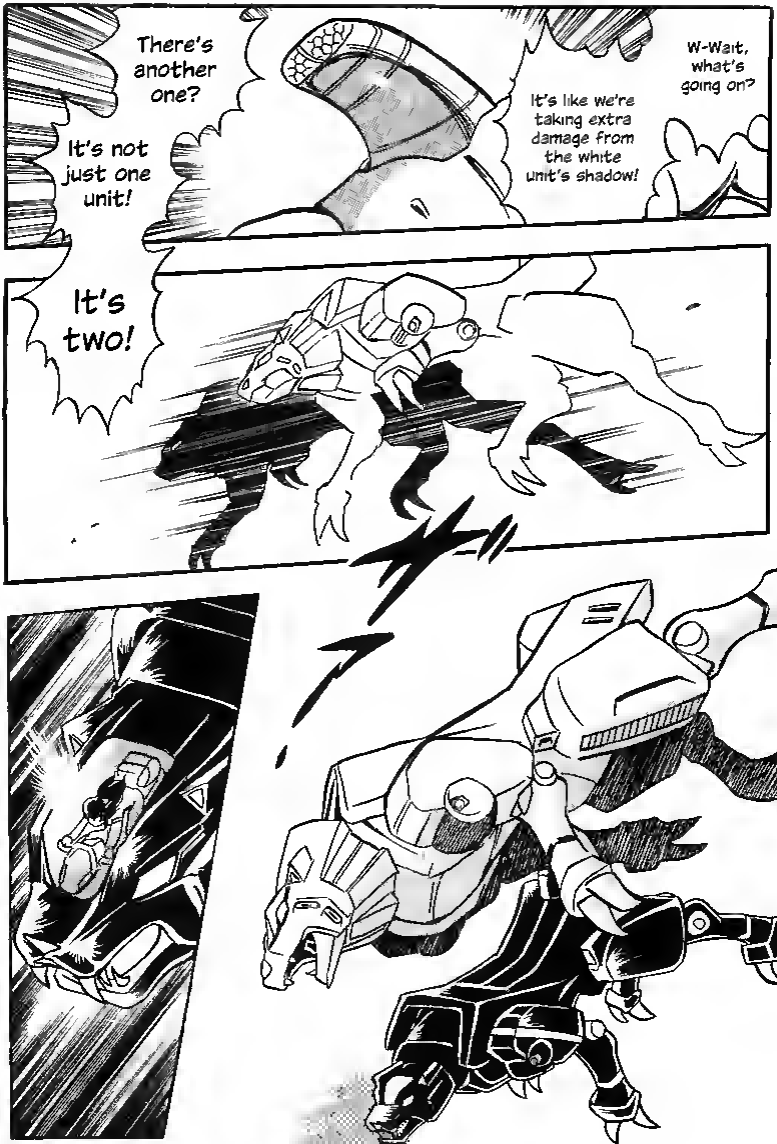
Is that an Earthling machine?
Kyah!
Let's go, Big Moth!
We've detected another unit within the city!

...but do you really think you can beat us all by yourself?!
Idiot! I don't know how powerful your machine is...
Sur-round it!



What?



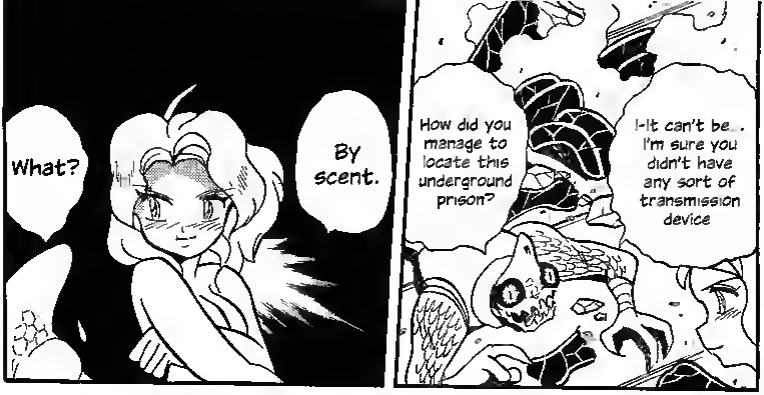


There's another one?
It's not just one unit!
It's like we're taking extra damage from the white unit's shadow!
W-Wait, what's going on?
It's two!

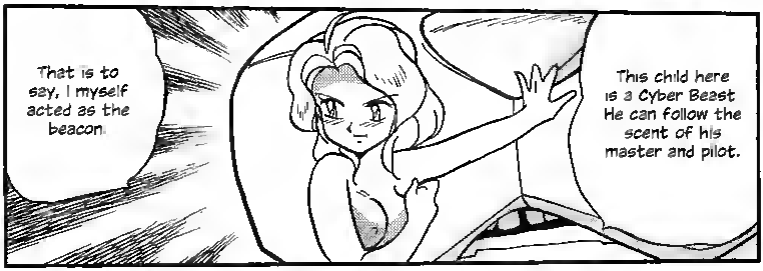
Well, it looks like the Liger's autopilot A.I. has pinpointed Yuuri's location...
Come on, Land Liger!
Lead me to those two...
You can't shoot the castle until I find them, Futaba-chan.
Aww~ Even though I have it right in my sights...

What the hell is that machine?
What? It changed form?
The Earthlings still had stuff like this hidden away?

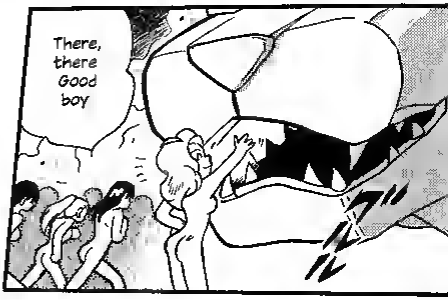
They still have units that...
...can stand up to us?!
All right, everyone! let's escape!



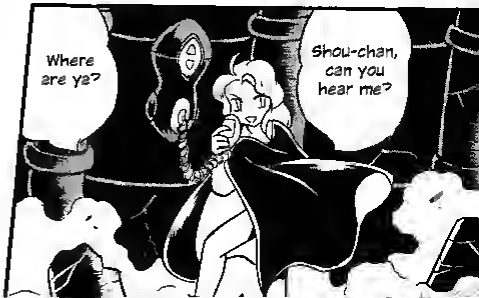
What?
By scent.
How did you manage to locate this underground prison?
I-It can't be... I'm sure you didn't have any sort of transmission device



That is to say, I myself acted as the beacon.
This child here is a Cyber Beast He can follow the scent of his master and pilot.



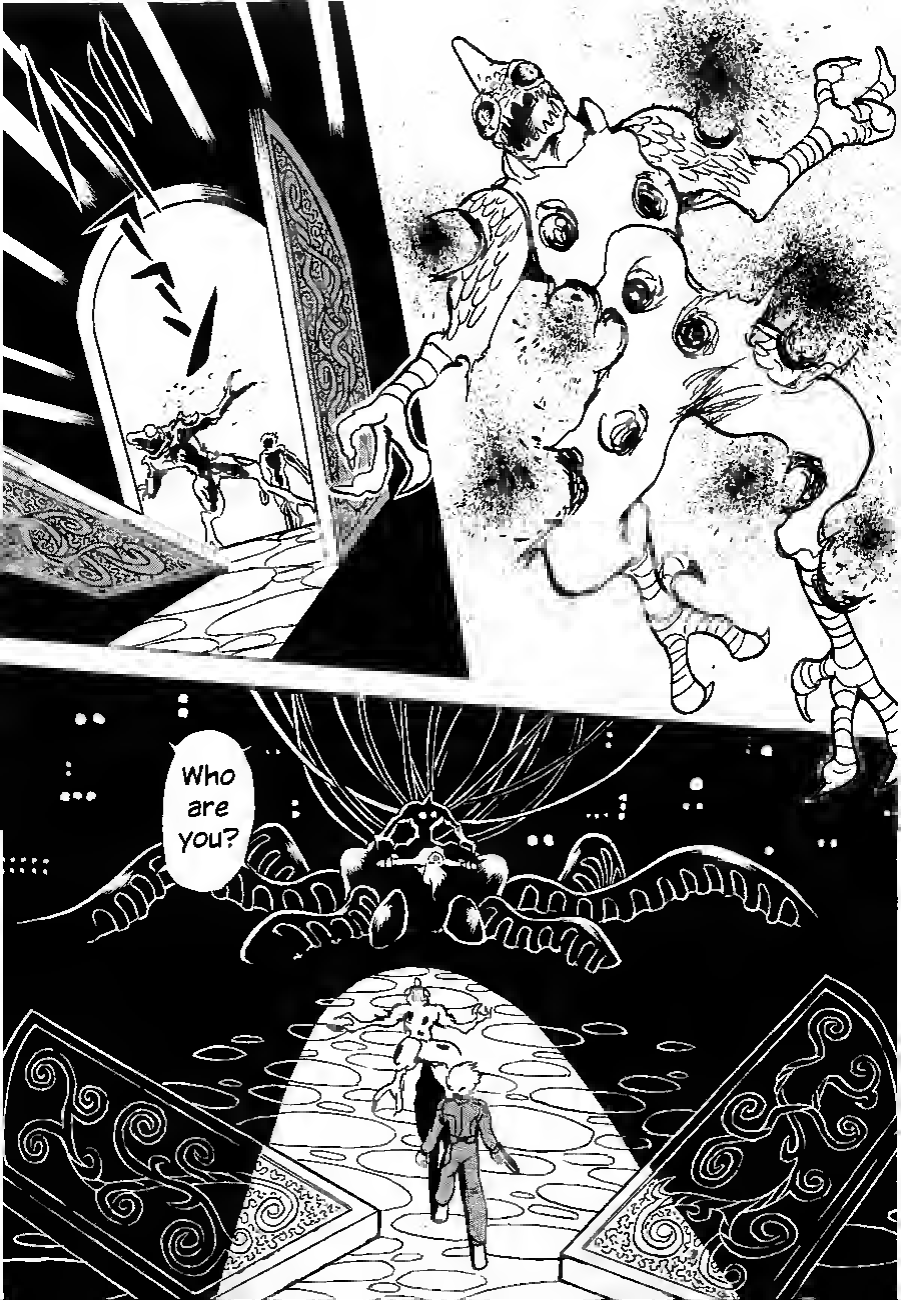
There, there Good boy



Where are ya?
Shou-chan, can you hear me?

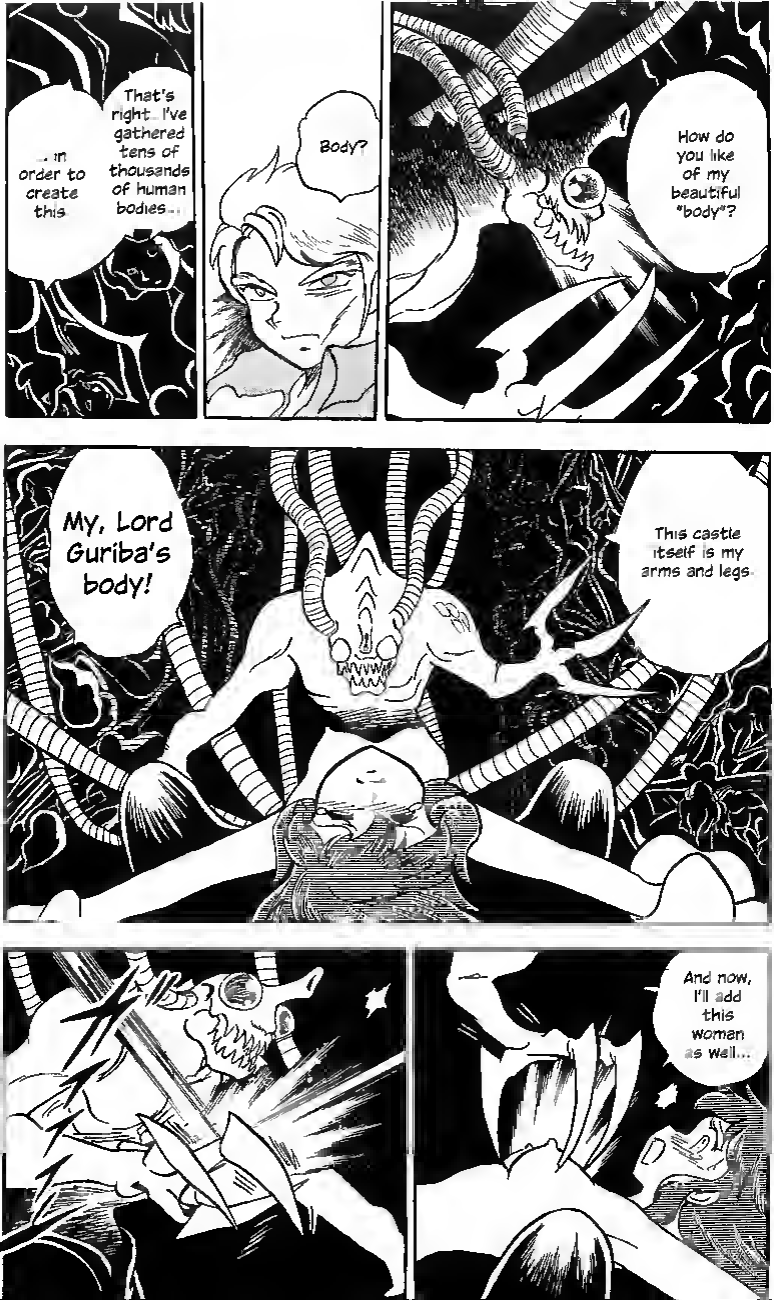
They took that Holly girl away right before we began the operation.
Tch! Useless!
She'll get turned into research material if ya don't hurry!

L-Let me go, would you?
I-I'm the one who granted your request and brought you here
Hey, I think I've seen you before.
That's right, it was you
H-Hehe That's right
!!
Gaaah?!



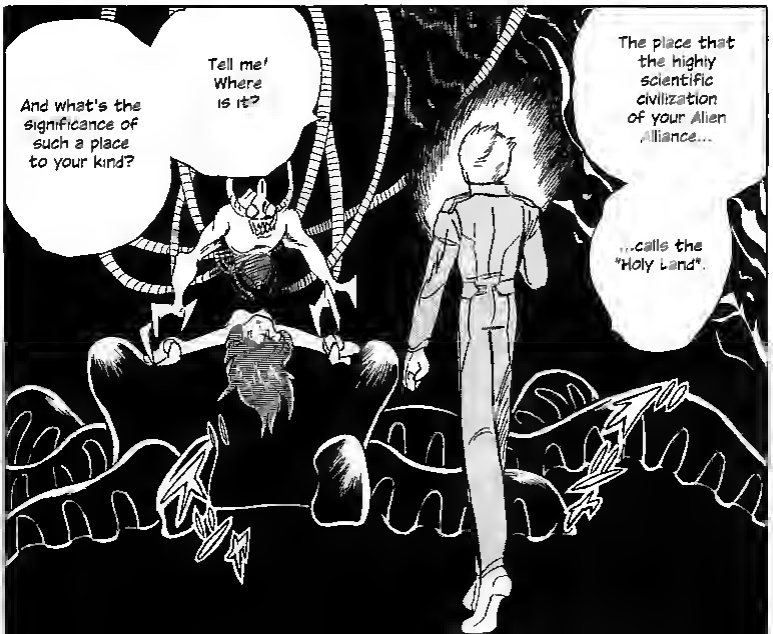
Who are you?

Hm?
So you're the boss around here, huh?
What do you think you're doing?
He he he he
What do I think I'm doing?
I'm reaping the fruits of several years of research...
Ah.
Aah...



How do you like of my beautiful "body"?
Body?
That's right. I've gathered tens of thousands of human bodies...
...in order to create this
This castle itself is my arms and legs.
My, Lord Guriba's body!
And now, I'll add this woman as well...

I came here because I want to ask you a question!
Where is the "Pillar"?!
What?
?!



The place that the highly scientific civilization of your Alien Alliance...
...calls the "Holy Land".
Tell me! Where is it?
And what's the significance of such a place to your kind?

I'll destroy it!
And what will you do when you learn all that?
Quit spouting nonsense!

What?!
Kyaaaah!
Gwah ha ha ha ha! So you think you can destroy the Pillar? Idiot!
Do you seriously think you can win?!

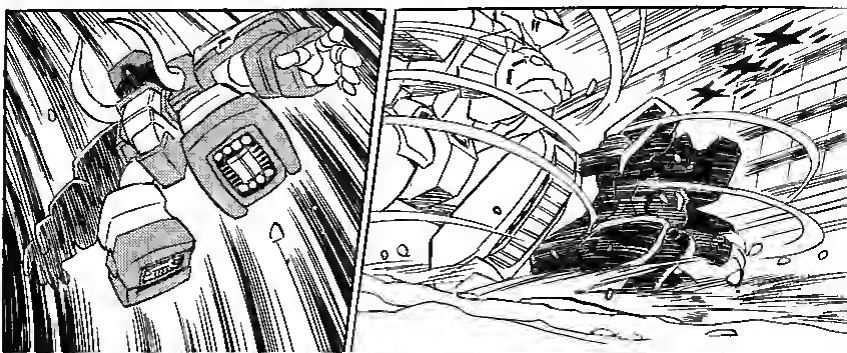
Kyaaaaah!
Eagle Fighter!

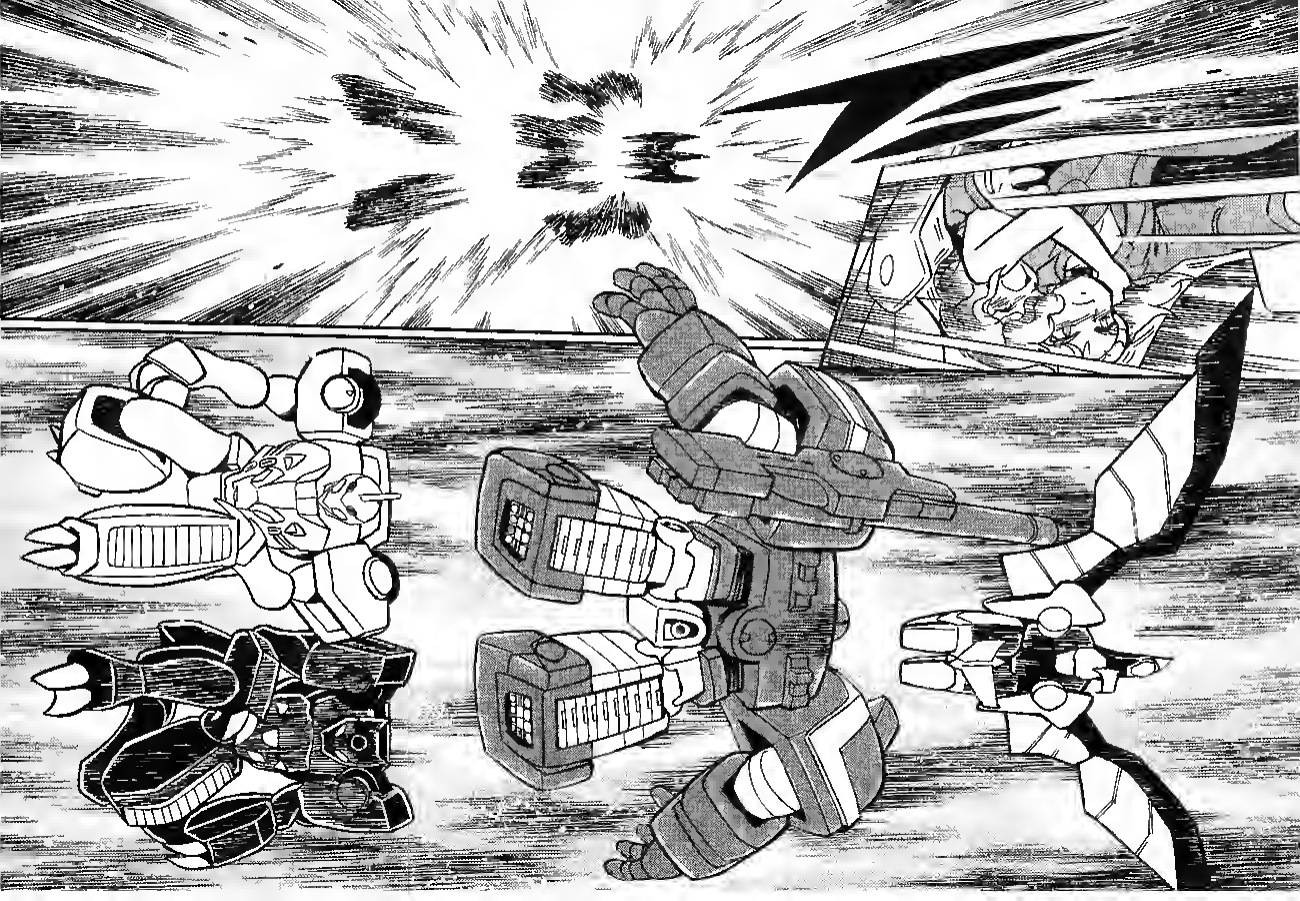
You can say things like that once you've defeated me
Defeat this Lord Guriba... then you can continue to spout your nonsense!

Aah!
What the-

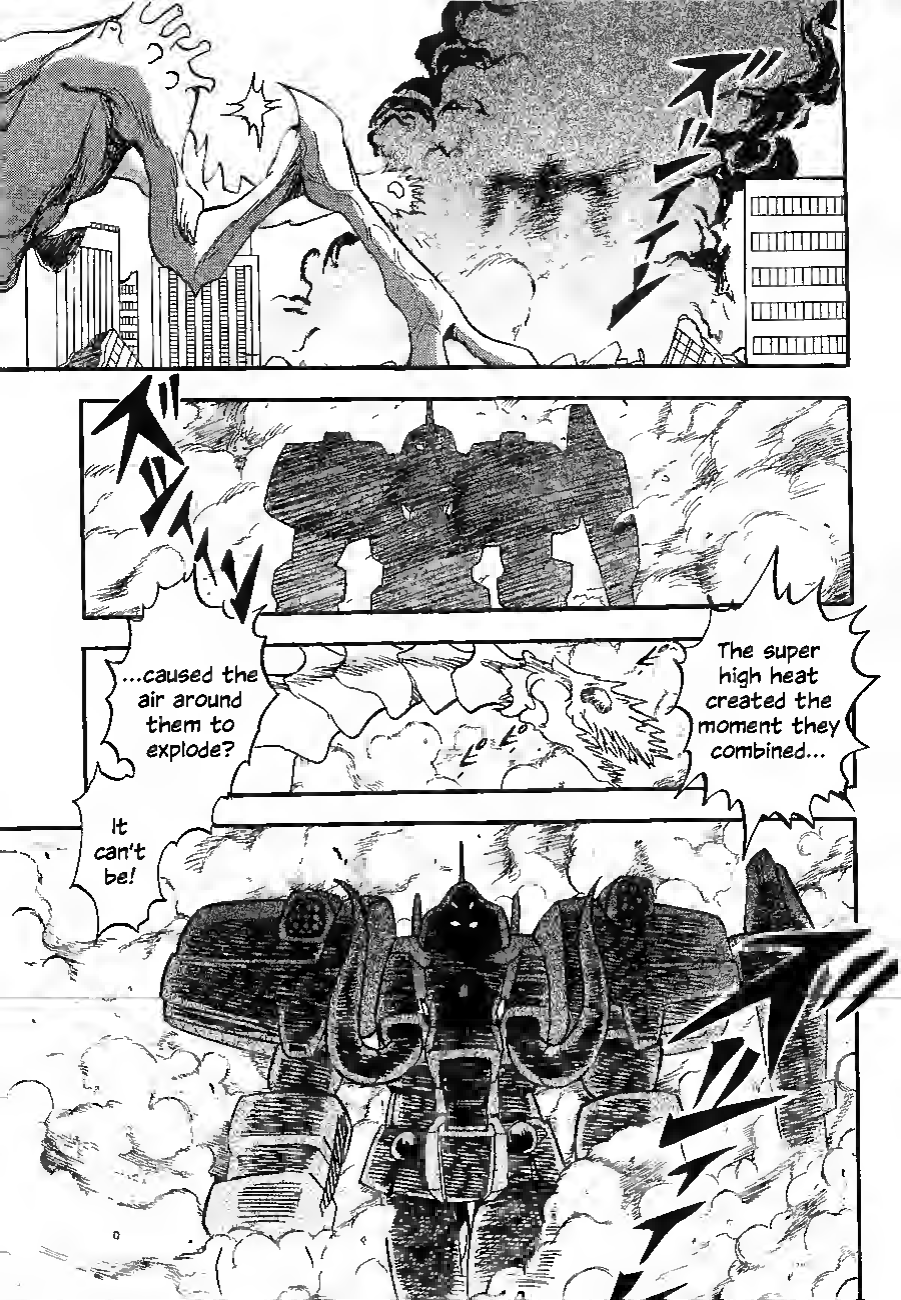
Let's combine.
Shou-kun.
I-It's huge. What do we do?
There's no time to hesitate!
Let's go!
All units, get in formation!
All right!

Cyber Beast Combi-nation!





?!
What? They exploded?
N-No, they didn't? What is this?



The super high heat created the moment they combined...
...caused the air around them to explode?
It can't be!

This...
What is this?!

Ah!
Aaah...
Bio-condenser gravity generator...
...all green!
Auto-balancer...
Okay!
Watch this.
Well, except for havin' an outsider in the cockpit.
We're good to go!

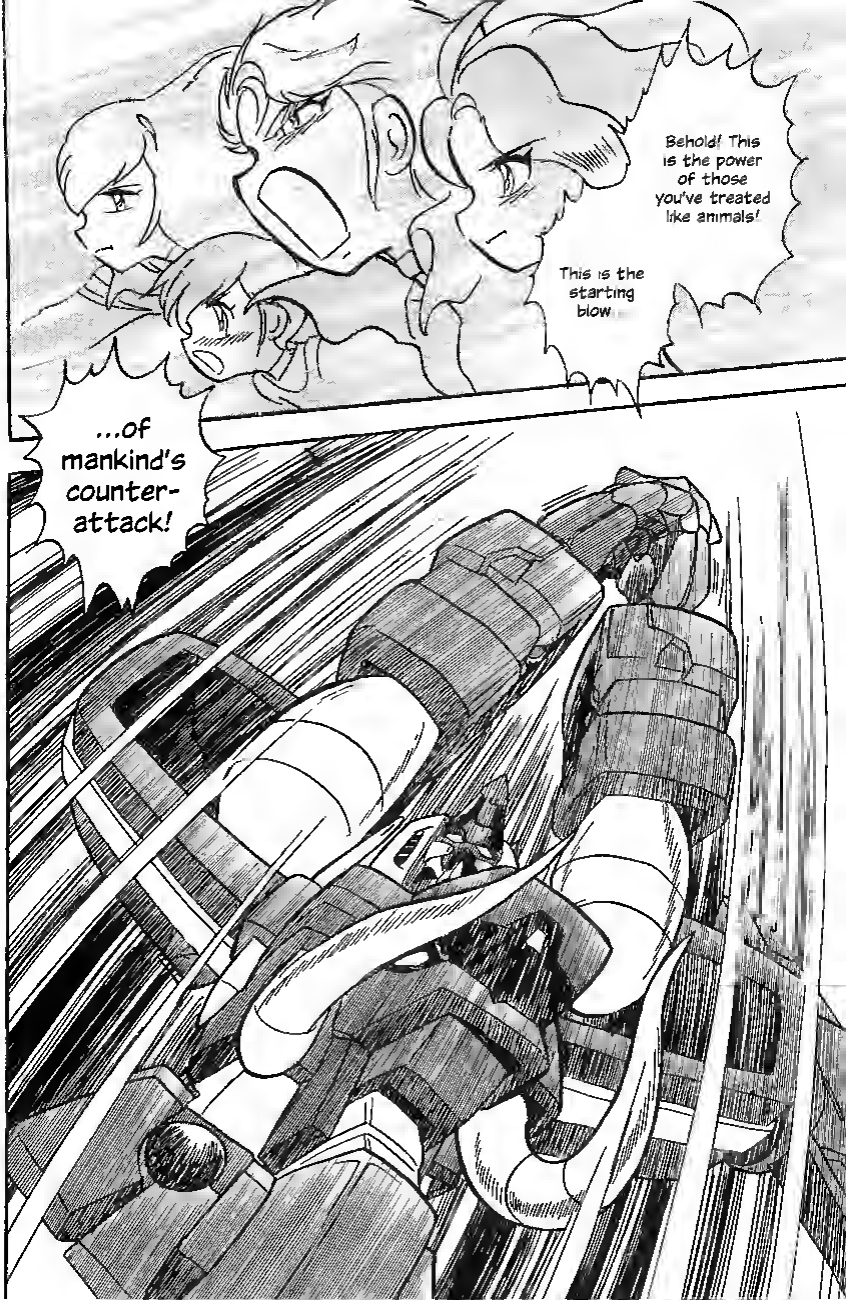
Kyaaaaah!
I'll avenge your brother...
...right now!

What can mere humans like you even do?!
Guh ha ha ha ha ha! You fools! This is pointless!

After all, you're nothing but losers!
Kyaaah!
Let's...
You're animals that only exist to be hunted by us!

Let's
do
it!

Guwaaah!
I-Is this graviton?
Impossible! You've harnessed the power of gravitons?
In the short time since our culture made contact with yours...
...you were able to comprehend the Graviton System?!
That's right this is the power of mankind!
It took us more than a decade to get this far!
Hiding underground, gathering people, storing materials...
Little by little... you have no idea how much we looked forward to this day!



Behold! This is the power of those you've treated like animals!
This is the starting blow
...of mankind's counter-attack!

Even if you offer them flowers...

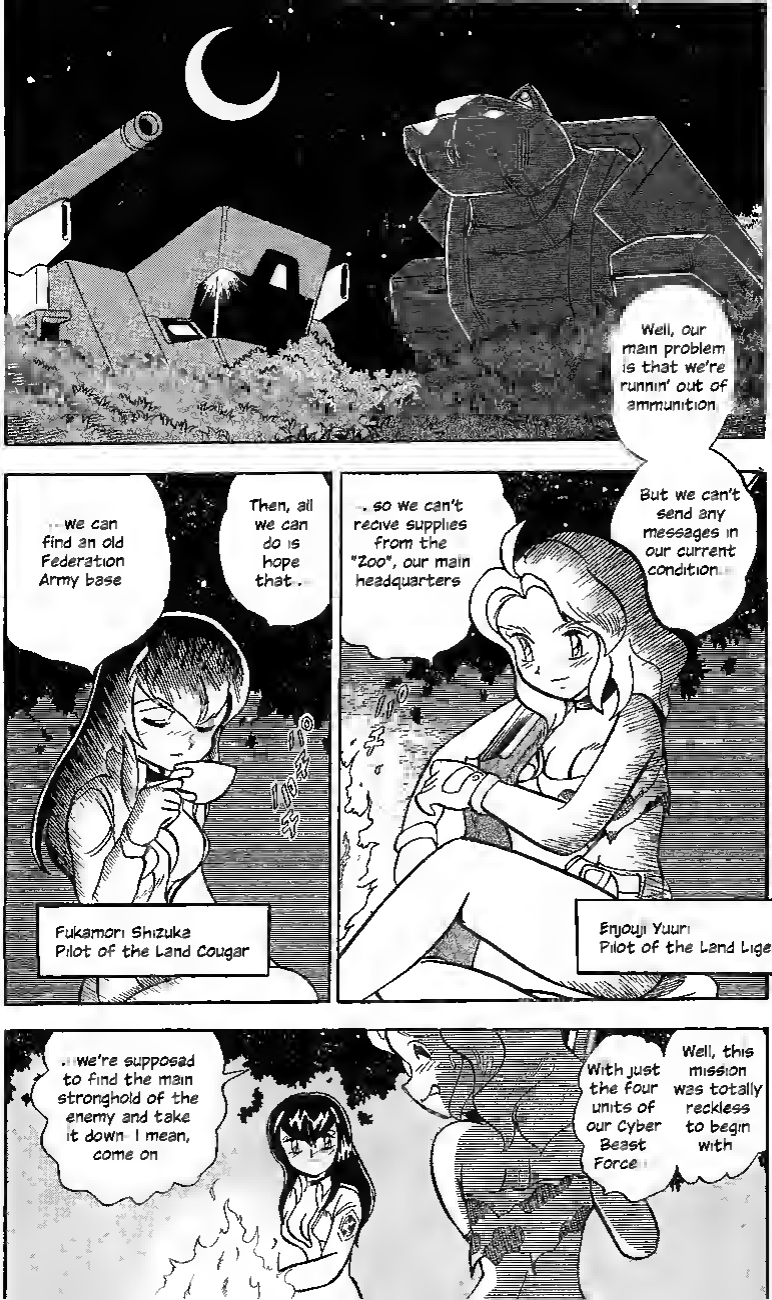
Ya plan on leavin' us behind or somethin'?! Hold up!
Wait up! Shou!
That's why I'll keep on fighting.
Even if this path leads me straight to hell.

Ch.II Trap
When the aliens invaded, everything around here was destroyed.
Ha ha ha! we wouldn't know anything about that.
Huh? A former Federation Army base around this area?
Ah! Hold on, little miss!
Thanks, mister.
I see.
He he he! Maybe she's a survivor of the Federation Army.
Why's she lookin' for something so dangerous?

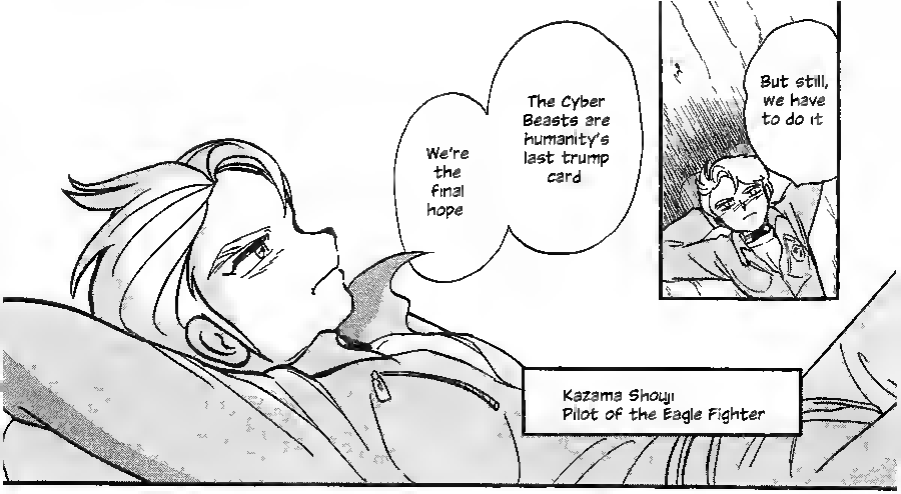
Fujino Futaba Twelve years old
The youngest member of the Cyber Beast Force "BURN"
Ha ha ha! That's a good one
to gather information
Wow, really?
Oh, I know about that It's in the mountains
Her special ability is to use her position (?) of being a child
Because of her appearance

...most people wouldn't believe it, but...
...she's also the pilot of the strongest land warfare weapon in history...
—the Big Moth
Baaam!
ZIRU

Ch.II Trap



Well, our main problem is that we're runnin' out of ammunition.
But we can't send any messages in our current condition.
..so we can't recive supplies from the "Zoo", our main headquarters
Enjouji Yuuri
Pilot of the Land Liger
Then, all we can do is hope that..
..we can find an old Federation Army base
Fukamori Shizuka
Pilot of the Land Cougar
Well, this mission was totally reckless to begin with
With just the four units of our Cyber Beast Force
..we're supposed to find the main stronghold of the enemy and take it down. I mean, come on

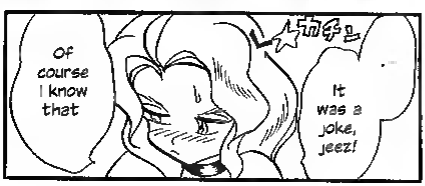


But still, we have to do it
The Cyber Beasts are humanity's last trump card
We're the final hope
Kazama Shouji
Pilot of the Eagle Fighter

What are you saying? There's no way that the bullets used by the aliens would be compatible with our equipment
How 'bout we just go shoot up an enemy base and steal their goods, huh? Wouldn't that be easier?
はは は
Ha ha ha

Oh, are you worried?
By the way, isn't the little one runnin' kinda late?

Well, not really. But sittin' around just waitin' is not my style, y'know?

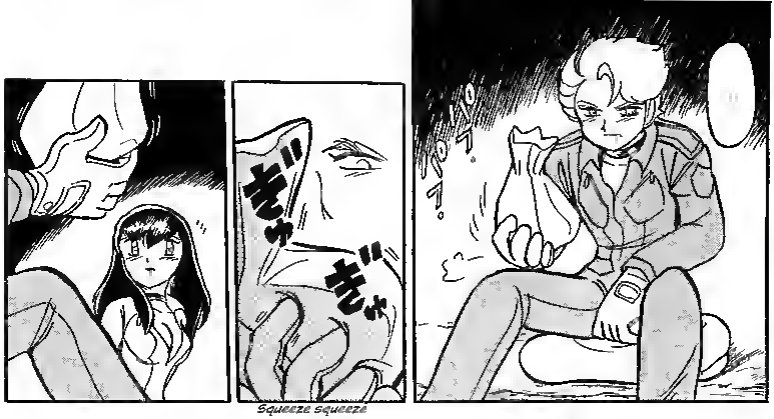


Of course I know that
It was a joke, jeez!

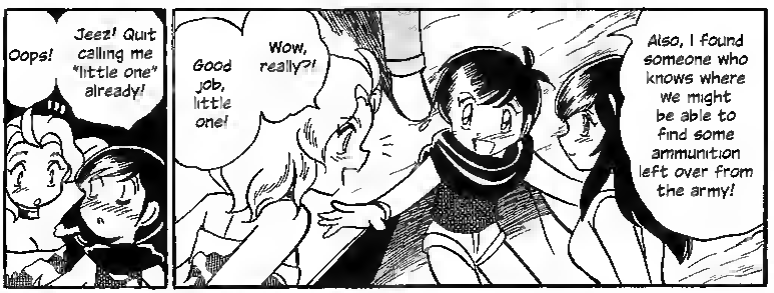
Your thought process is too shallow
So even if we got them, we wouldn't be able to use them

Well, excuse me!
...as a joke, it wasn't funny at all, so I assumed you were serious...
Oh, my I just thought that...
Well, yeah, that's true...
But it's just the four of us out here, you know?
We've only just met when we were assigned to this mission, so we still don't know much about each other...
Let's try to get along, okay?
I'm sorry
It's just that...
I didn't mean to offend you
Who's there?
Hm?!
Are you tryin' to get along with me or not?!
I have this habit of carelessly speaking out loud what I'm really thinking...

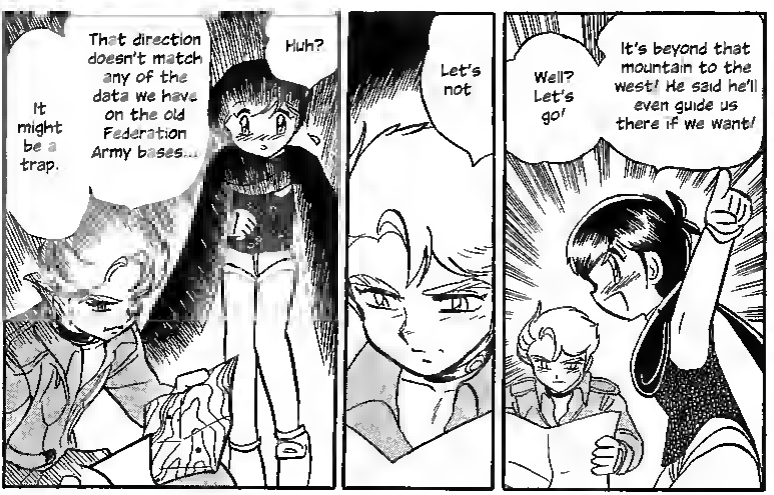
Ta-da! Fujino Futaba has returned!
Don't worry.
It's Futaba.
Ah...
Okay...
I already told you not to make loud noises unless it's strictly necessary, didn't I?
Be quiet!
A nice old man in town gave them to me. Go ahead, have some
Look! I got some steamed buns!
Oh, right! You're hungry, aren't you, Shou?



ぎゅ
ぎゅ
Squeeze Squeeze



Oops!
Jeez! Quit calling me "little one" already!
Good job, little one!
Wow, really?!
Also, I found someone who knows where we might be able to find some ammunition left over from the army!

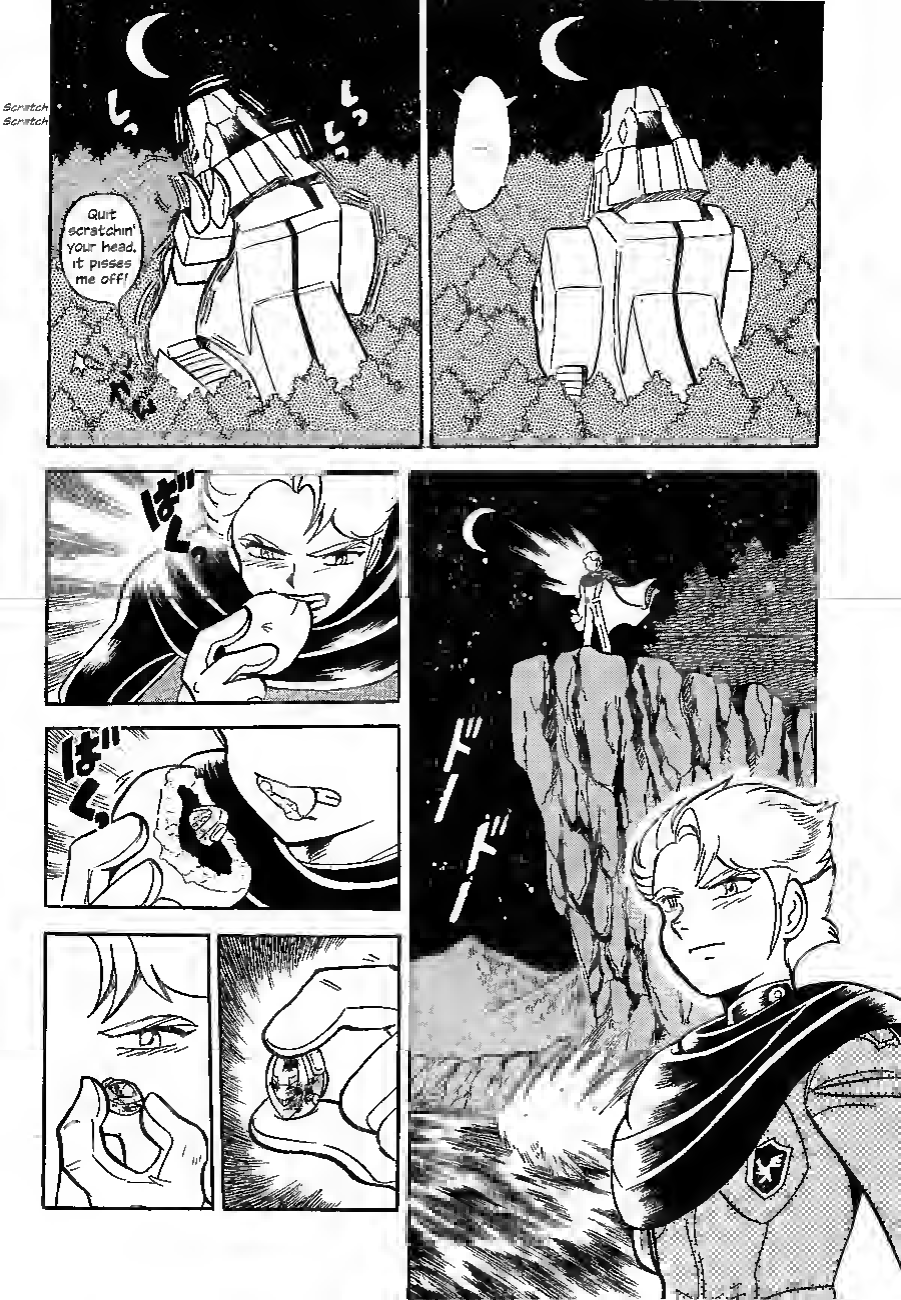


It might be a trap.
That direction doesn't match any of the data we have on the old Federation Army bases...
Huh?
Let's not
Well? Let's go!
It's beyond that mountain to the west! He said he'll even guide us there if we want!

Maybe they moved to a different location during the war or something!
The answer is still no.
it would be a wasted trip
But...
...
Eh? But...
...and I brought those steamed buns because I thought everyone would be happy...
I work really hard, even when it's cold...
Tomorrow we'll decide on a different destination
I'm doing my best here, all right?!
What's up with that...
Don't cry!
She has a point!
Hey, hey, Shou-chan!
There's no need to be so mean...

If you're gonna cry over something like this, then you shouldn't even be on this mission.
Maybe we should leave you behind
I'll go plan our strategy
And if by any chance...
...there's a "rock" inside any of your steamed buns...
...throw it into the river! Are we clear?!
Uwah...
Uh...
Uuh...
Uweeah!
Hey! Shouji! What's with that tone of voice just now?!
Stop right there!

That man has no delicacy whatsoever!
Honestly, I can't believe it!
Just listen to this! The other day, while we were on a mission...
... he pulled the cape I was coverin' myself with right off!
In front of a whole bunch of people, too!
Also, even though my nice body was exposed right in front of his eyes...
...he didn't seem affected at all! isn't that just rude?!
Maybe he's just used to it since you show off your breasts all the time, anyway
Or maybe you're just not his type
It's nothing to worry about
I hate your guts, y'know that?!
Fine by me... I find that easier to hear than a confession of love



Scratch

Quit scratchin' your head. It pisses me off!

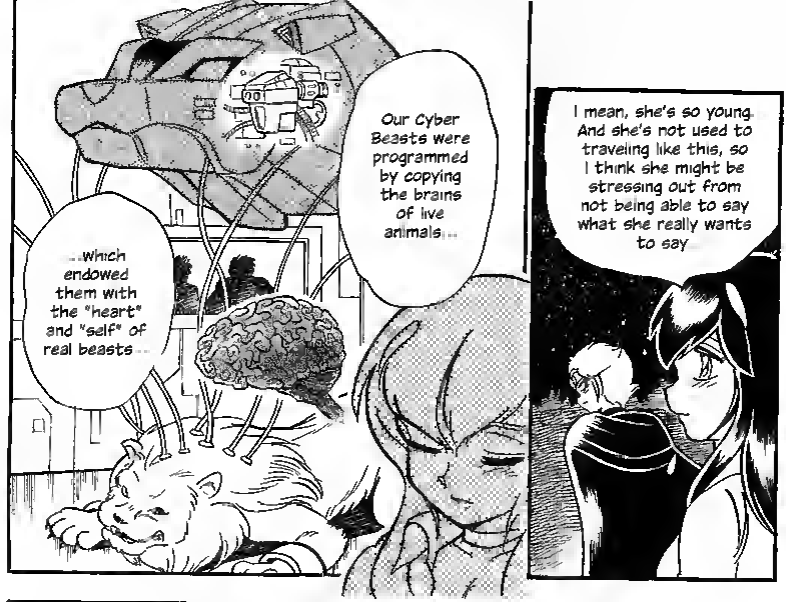
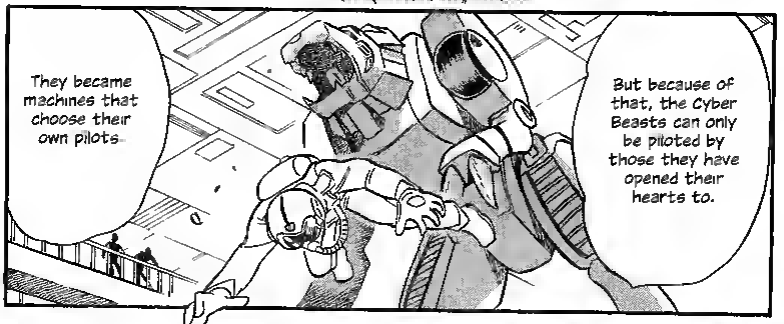
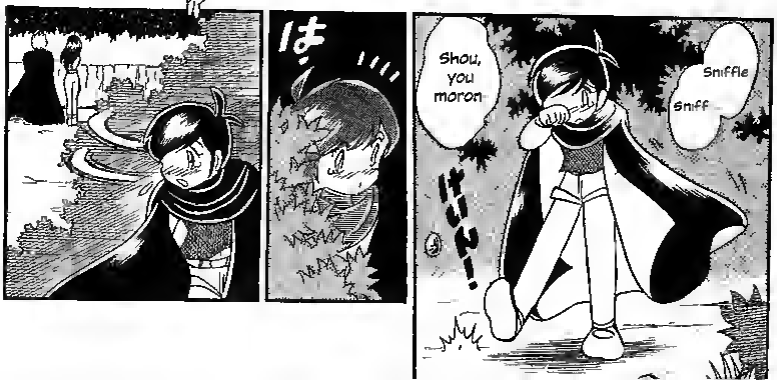
So there was a transmission device inside, after all?
No matter how far we travel, we're always in enemy territory.
But she doesn't seem to understand that...
Hey, Shou-kun. Yuuri and I are fine, but...
...Could you at least try to be a little nicer to that child?



Our Cyber Beasts were programmed by copying the brains of live animals...
...which endowed them with the "heart" and "self" of real beasts...
I mean, she's so young. And she's not used to traveling like this, so I think she might be stressing out from not being able to say what she really wants to say.



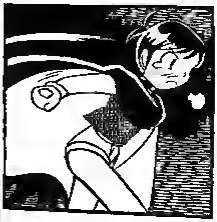
They became machines that choose their own pilots.
But because of that, the Cyber Beasts can only be piloted by those they have opened their hearts to.

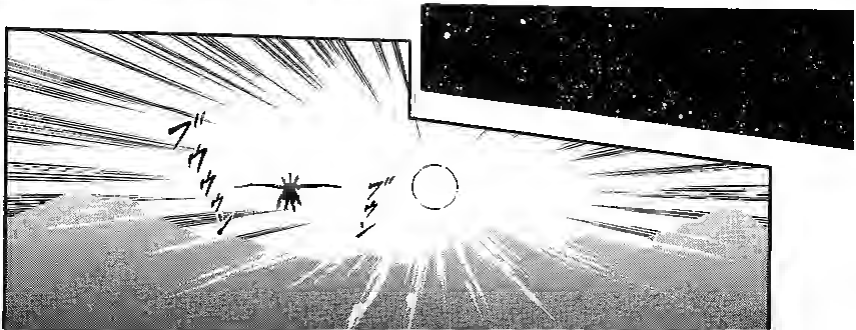


Shou, you moron.
Sniffle
Sniff...

As a result, a non-combatant ended up being chosen as a pilot
This may be a confusing situation for you, who received combat training...
but it's the same for the ones who were chosen
That girl knows that she's of no use in combat, and that's why she's working so hard...
Miss Shizuka
It doesn't matter if she's a combatant or not
...women are not suited for combat on a basic level!
As long as she doesn't slow me down, that's good enough
SHOOT

I need you to accompany me tonight.





Hm?
Where's the Big Moth?
Huh? The Big Moth?
I dunno, why?
Well, it was here before, right?
Now it's missing along with Futaba-chan
How could you not notice something that big moving?
Huh?

Ow ow ow ow! Whatcha doin'?!
Well.. I did feel an earth-quake...
ミョウ

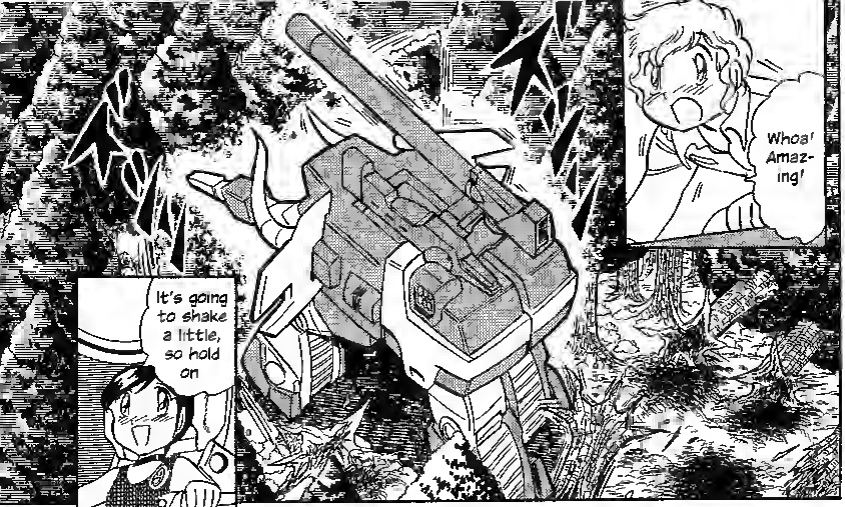
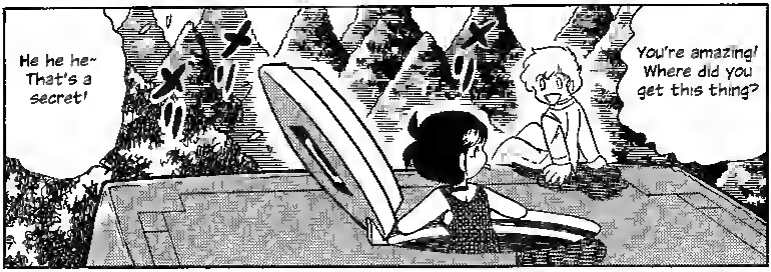
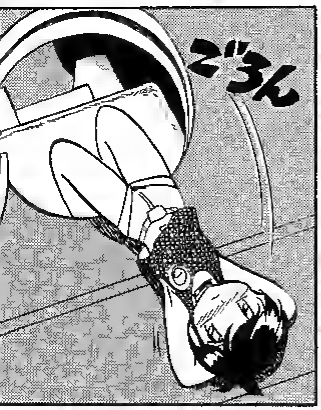
Shou, you moron!



It's going to shake a little, so hold on
Whoa! Amazing!



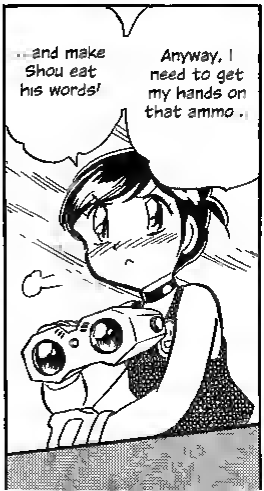
He he he~ That's a secret!
You're amazing! Where did you get this thing?



ごろん

Or maybe your boy-friend?
Is Shou your big brother?

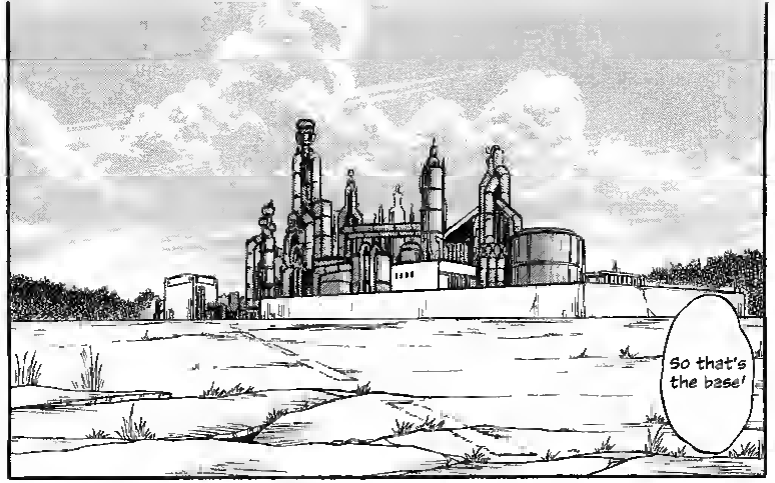
Y... Yeah



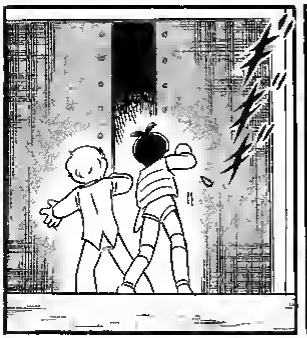
...and make Shou eat his words!
Anyway, I need to get my hands on that ammo...

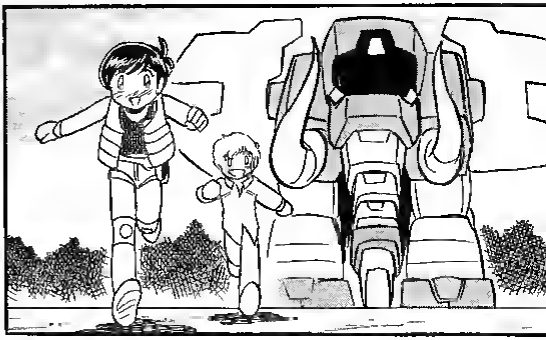
Lately, I'm not sure anymore...
He was so kind and reliable. We used to do everything together.
He used to play with me a lot in the base, since there weren't many kids around
He's the only one in the team that I already knew before. He knows everything about me
He used to be like a nice big brother.
Baths?!
We even took baths together
I really thought that he liked me...

Though big sis Yuuri acts like that, she's a pro with heavy weaponry,
and Miss Shizuka is an expert sniper. On top of that, they're both so glamurous.
I guess it was around the time when we were assigned to this adventure...
He suddenly started acting cold and strict with me
...where's this "headquarters" you speak of located?
So...
Hmm
I guess he just lost interest in me.
Wow!
I see the place.
...
Sorry... that's a secret.



So that's the base!





Huh?
It's empty?

Ah?!
Big Moth?!

I'm actually a probe device...

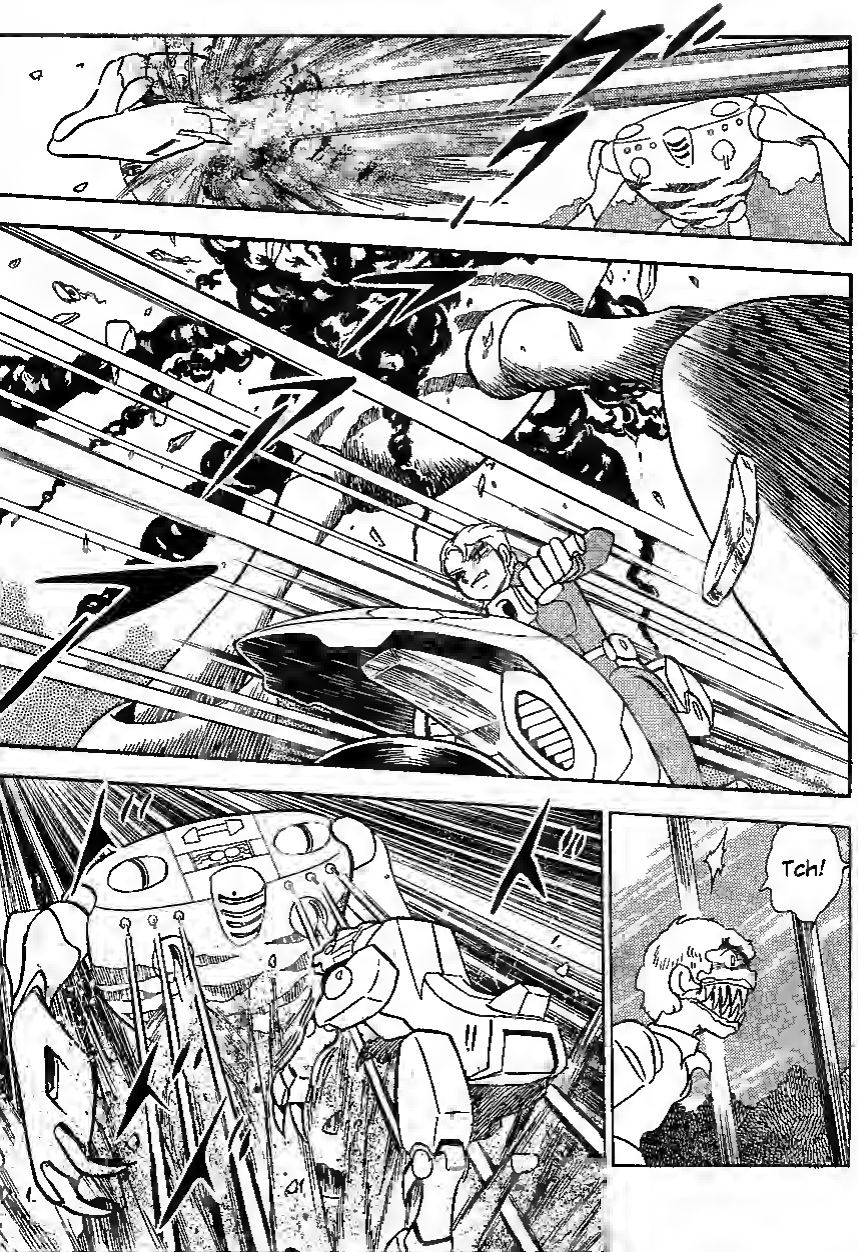
Eh he he he.
Ah ha ha ha ha ha.
Ah!

I've been looking for you people for a long time
There are lots of things I want to ask you.
Those machines that have the power to stand against us—
Tell me the secrets behind them.
G— Give it up. No matter how much you threaten me—
No matter what you do to me, I won't tell you anything!
Fine, then. I don't really need you to tell me.
Ah.
Ah...
Aah!
Also, tell me where and how you were able to build such things

...And investigate directly.
I'll just pry into your brain...
Ugh!
Wh-What is it?
Huh?



Tch!

Just give up!
The Cyber Beasts move guided by their wild instinct...
...there's no way that some machine's programming can predict or keep up with that!

Hm?
Where are you?!
Futaba!

But look at that! She's gettin' special treatment!
They're having a moment. Let's leave them alone for now.

Hey! I won't acknowledge that kind of relationship!

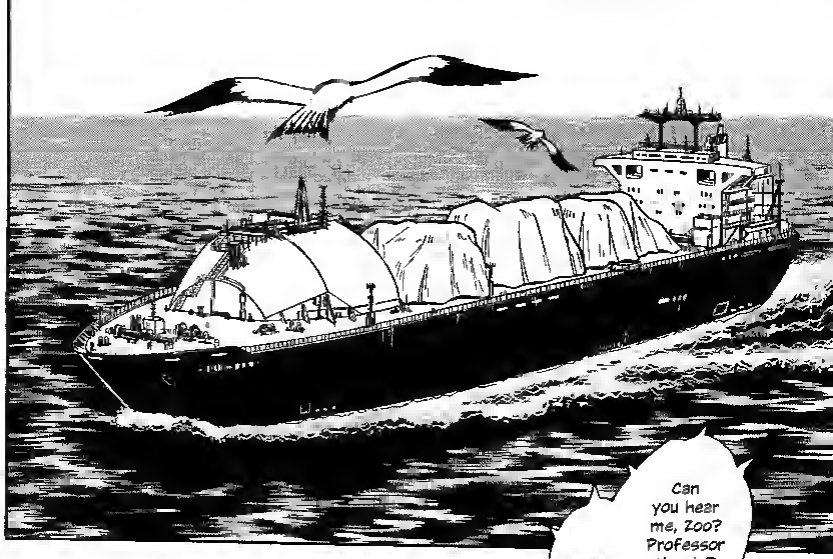
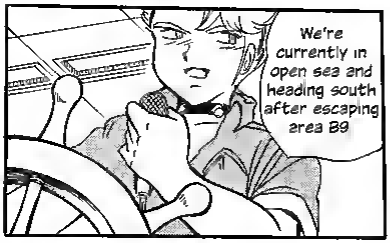
Ch.III The Man Who Laughed

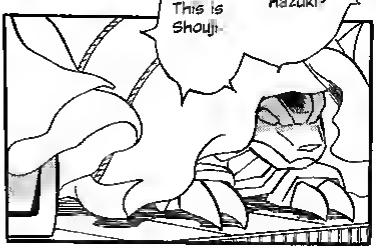
This is the machine that was mentioned in the report.
Hostility factor 0120.
Identification codename is "BURN".
It already appeared in the main bases of seven of our races..
...and completely destroyed every single one of them, unbelievable as that is
Of course, this is unimaginable considering the data we've collected from Earth so far.
To think that they were able to create such a weapon in a period of only 13 cycles..
...is truly dreadful
That's the data that we of the Simmis race have gathered.
Their objective is the "Pillar". But even if we know that...

That's why we called you
Prisoner 7806...
"Niezheaven".
Can you destroy them?
After all, those are the rules of the "Pillar".
...we still cannot move our own territory.
For starters, I'll show you my skill...
What?
...What do you suppose is their external temperature?
He he he
Don't worry I have already determined their weakness from this data
He he he

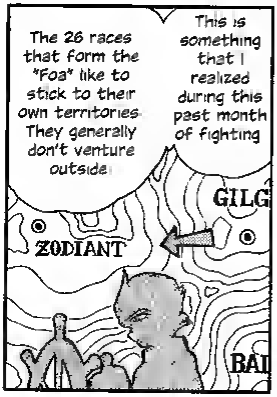




We're currently in open sea and heading south after escaping area B9

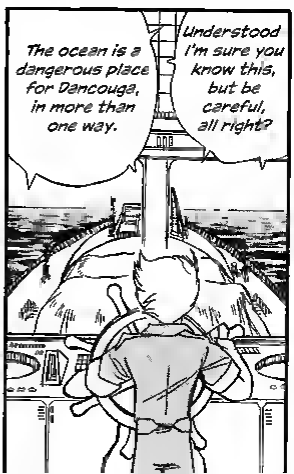


Can you hear me, Zoo? Professor Hazuki?
This is Shouji.

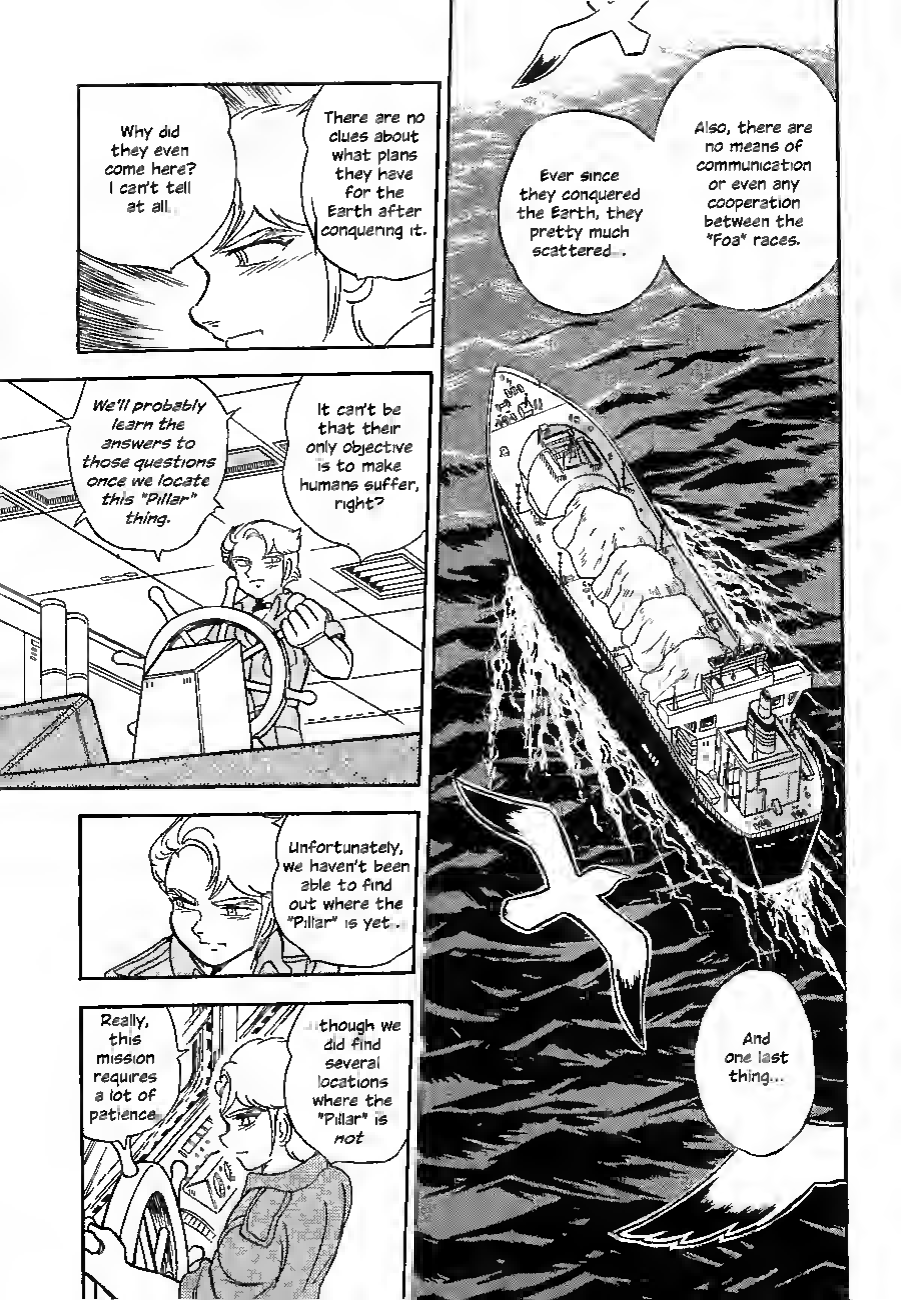


The 26 races that form the "Foa" like to stick to their own territories. They generally don't venture outside.
This is something that I realized during this past month of fighting
GILG
ZODIANT
BAI

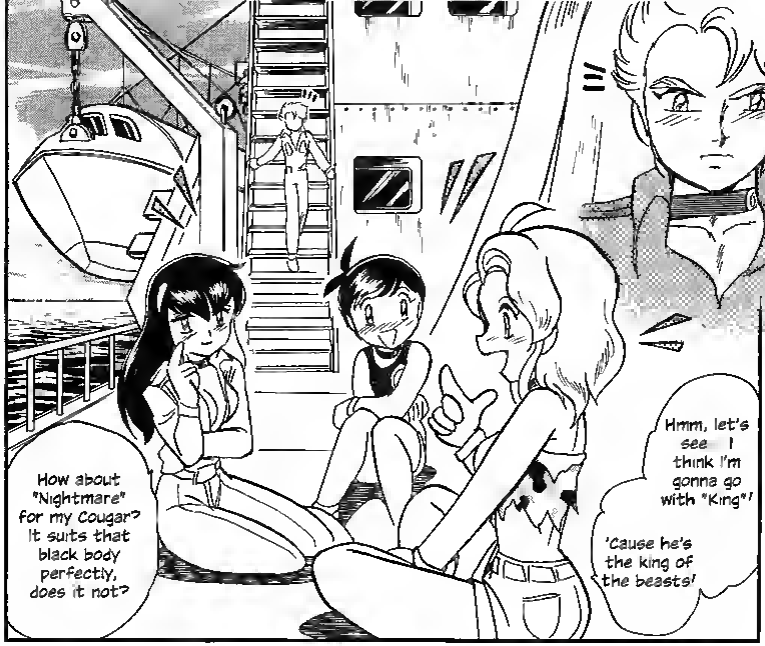
This region doesn't belong to any races. The "Foa" won't follow us.
I just told you that we're out of the area.



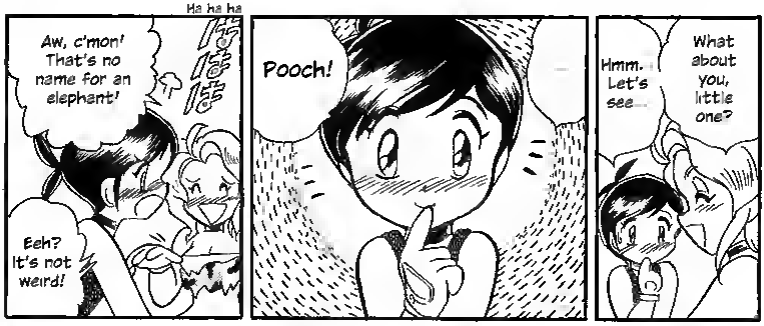
The ocean is a dangerous place for Dancouga, in more than one way.
Understood I'm sure you know this, but be careful, all right?



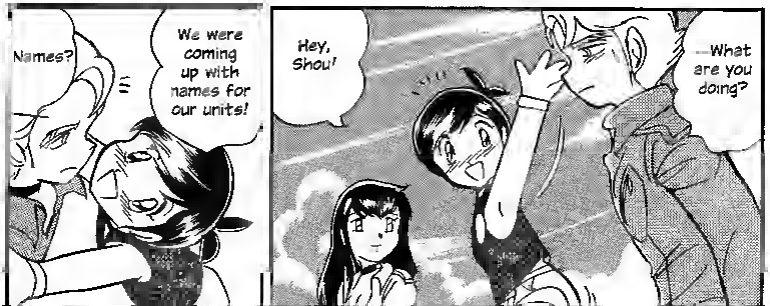
There are no clues about what plans they have for the Earth after conquering it.
Why did they even come here? I can't tell at all...
It can't be that their only objective is to make humans suffer, right?
We'll probably learn the answers to those questions once we locate this "Pillar" thing.
Unfortunately, we haven't been able to find out where the "Pillar" is yet...
though we did find several locations where the "Pillar" is not
Really, this mission requires a lot of patience.
Ever since they conquered the Earth, they pretty much scattered...
Also, there are no means of communication or even any cooperation between the "Foa" races.
And one last thing...



How about "Nightmare" for my Cougar? It suits that black body perfectly, does it not?
Hmm, let's see... I think I'm gonna go with "King"!
'Cause he's the king of the beasts!

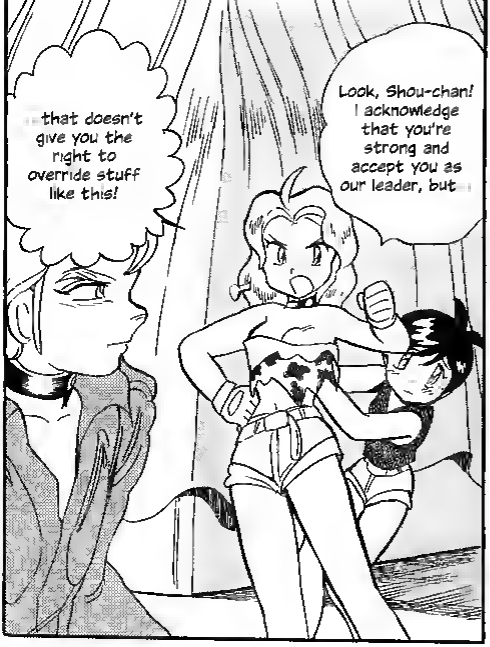


Aw, c'mon! That's no name for an elephant!
Ha ha ha
Eeh? It's not weird!
Pooch!
Hmm. Let's see...
What about you, little one?



Names?
We were coming up with names for our units!
Hey, Shou!
—What are you doing?

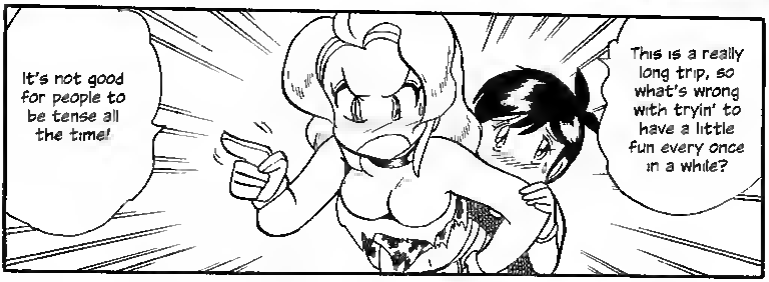
So it's only proper that their masters would give them names.
I mean, the Cyber Beasts have the individuality of real animals.
Tch, tch, tch! Wrong! That's the name of the type of machine they are! It's like namin' a dog "Dog".
They already have names, right? Eagle Fighter, Big Moth, Land Liger.
Besides, callin' them by name and havin' them answer will increase your trust for each other.
I think this kind of thing is nice every once in a while.
Well, I'm a girl, too.
Shizuka, you're going along with this?
Eagle Fighter
It'll calm you down
C'mon, Shou-chan! Give it a try! Pick a name that you like!



Look, Shou-chan! I acknowledge that you're strong and accept you as our leader, but
that doesn't give you the right to override stuff like this!

Jeez, what a boring guy.

Enough already This isn't kindergarten.

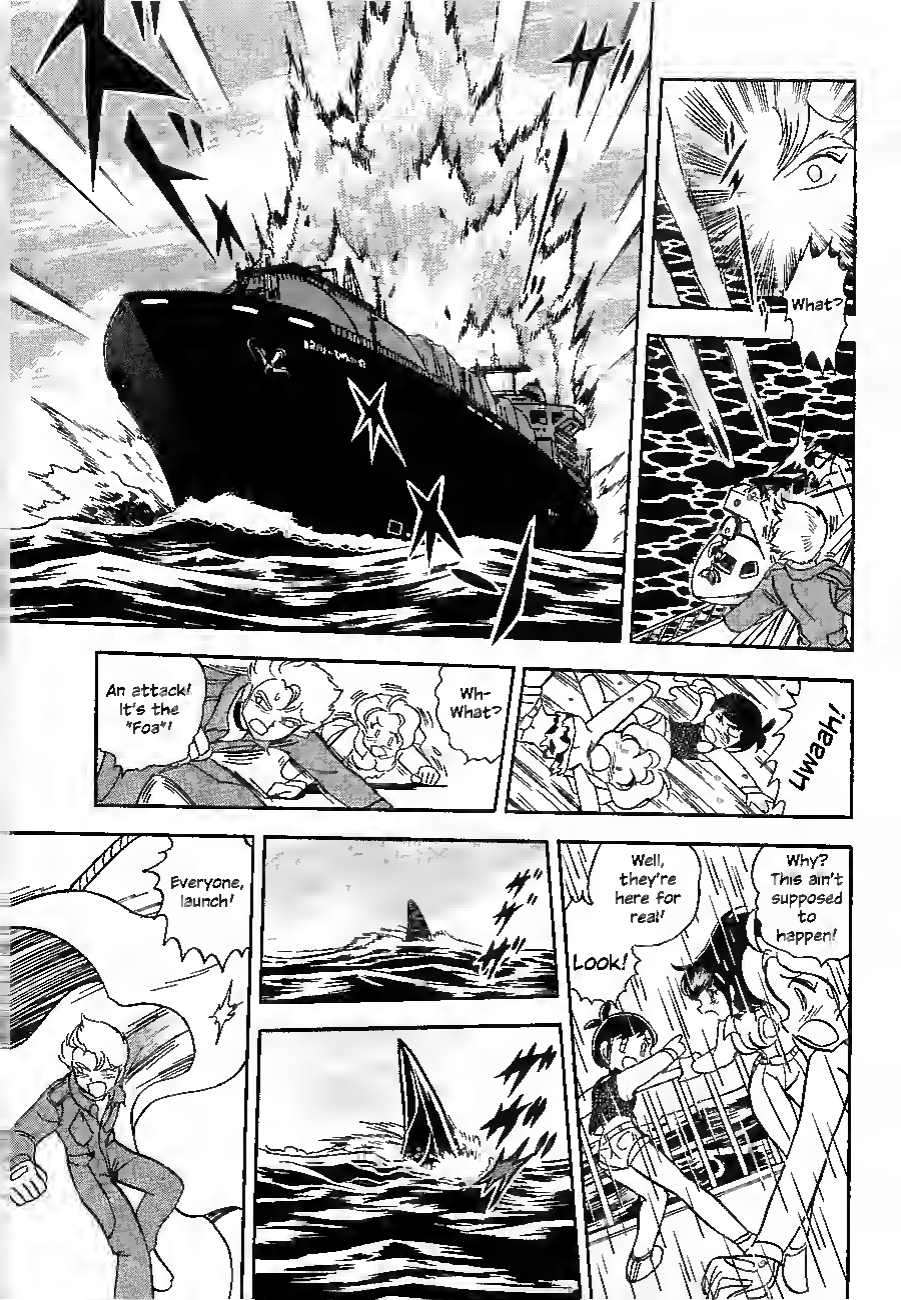


It's not good for people to be tense all the time!
This is a really long trip, so what's wrong with tryin' to have a little fun every once in a while?

That goes for you, too! Keep this up and you're gonna snap sooner or later!

There are things that scare me...
No, that's not true.
. but he doesn't know fun, either!
Ah, how boring So the strongest warrior doesn't know fear...
Like you girls. You scare me.
What are you even talkin' about?
Huh?
Eh?
You won't get it even if I tell you
Yes . being able to say it so honestly scares me.
But that's just me.
At any time, if you're having fun, you can just say it

Ngaaah!
That attitude seriously pisses me off!
Ya hear me, Shou?! Some day, I'm gonna put a smile on that stiff face of yours!
Keep that in mind, will ya?!
FUCK
YOU
I'll make you laugh even if I have to tickle you!
Yeah, like an insignia or somethin'! Sounds like fun, right?
Em-blem?
Hey, I know! Wanna try makin' an emblem next?
Shou...
But...
Leave that guy alone



What?
An attack! It's the "Foa"!
Wh-What?
Uwaah!
Everyone, launch!
Look!
Well, they're here for real!
Why? This ain't supposed to happen!

Hurry!

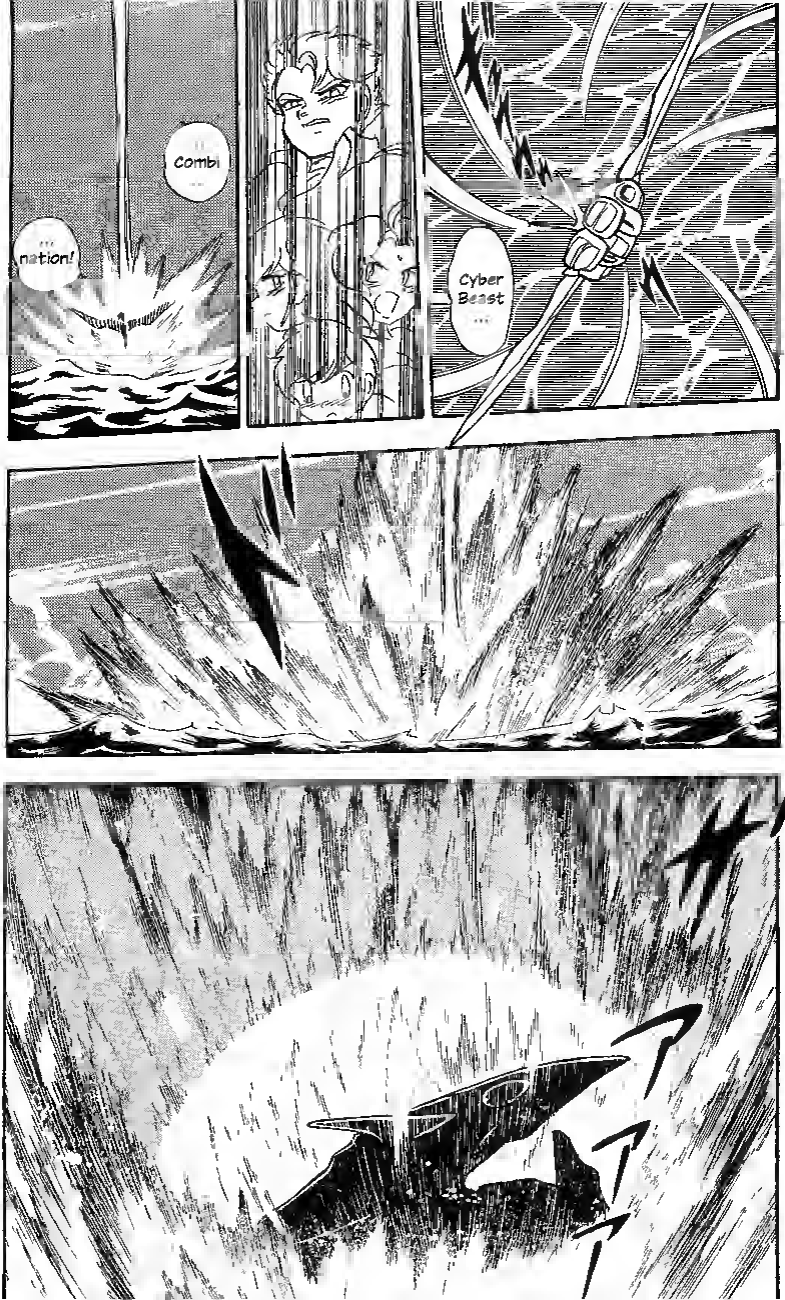
ゴボ
ゴボ
ゴボ
This is bad!
...we're not suited for underwater combat!
What do we do? Any way you look at it...
They're coming!
Straight ahead... three units!

They're high-speed submarines!

Let's go!
I know that! But waiting will only increase our disadvantage

Shou?
Let's combine

Wait! Even as Dancouga, our mobility underwater is still bad



Combi
...
...nation!
Cyber
Beast
...
アアア

Split the sea open!
Expand the Gravity Field!

I see! As long as the battlefield isn't underwater...
But this G-Field will only last for another 30 seconds!
That's plenty

Behind us!
A high energy reading!
Wait! There's still another enemy!
It's a high-level monster!
What?

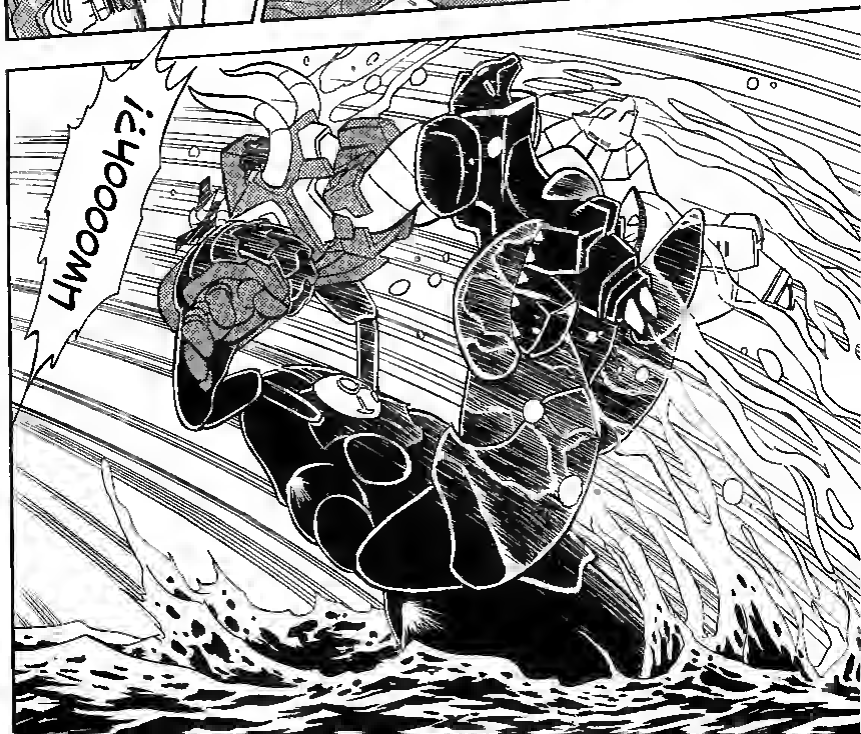
Damn it!
The G-Field is at its limit!

Here comes the water!
Hwaaah!

Damn it!
So they deduced this much about us, huh?
Eh? What? What are you talking about?
The fact that Dancouga's underwater fighting ability is low!
And also...
..the fact that the machine's external temperature is abnormally high!
What?
This Graviton Engine that we copied from an unknown civilization
...produces too much energy when used by us!
When combined, Dancouga is constantly overheating!
The external temperature can reach up to 500°C.
It literally "burns"!
And no matter how strong, any metal will become brittle after such a drastic temperature change!

On top of that, the G-Field that normally protects the fuselage...
...can't be used for the time being!

T-Then, what?
Even in this situation...
. We can't go down so easily...
Uh?



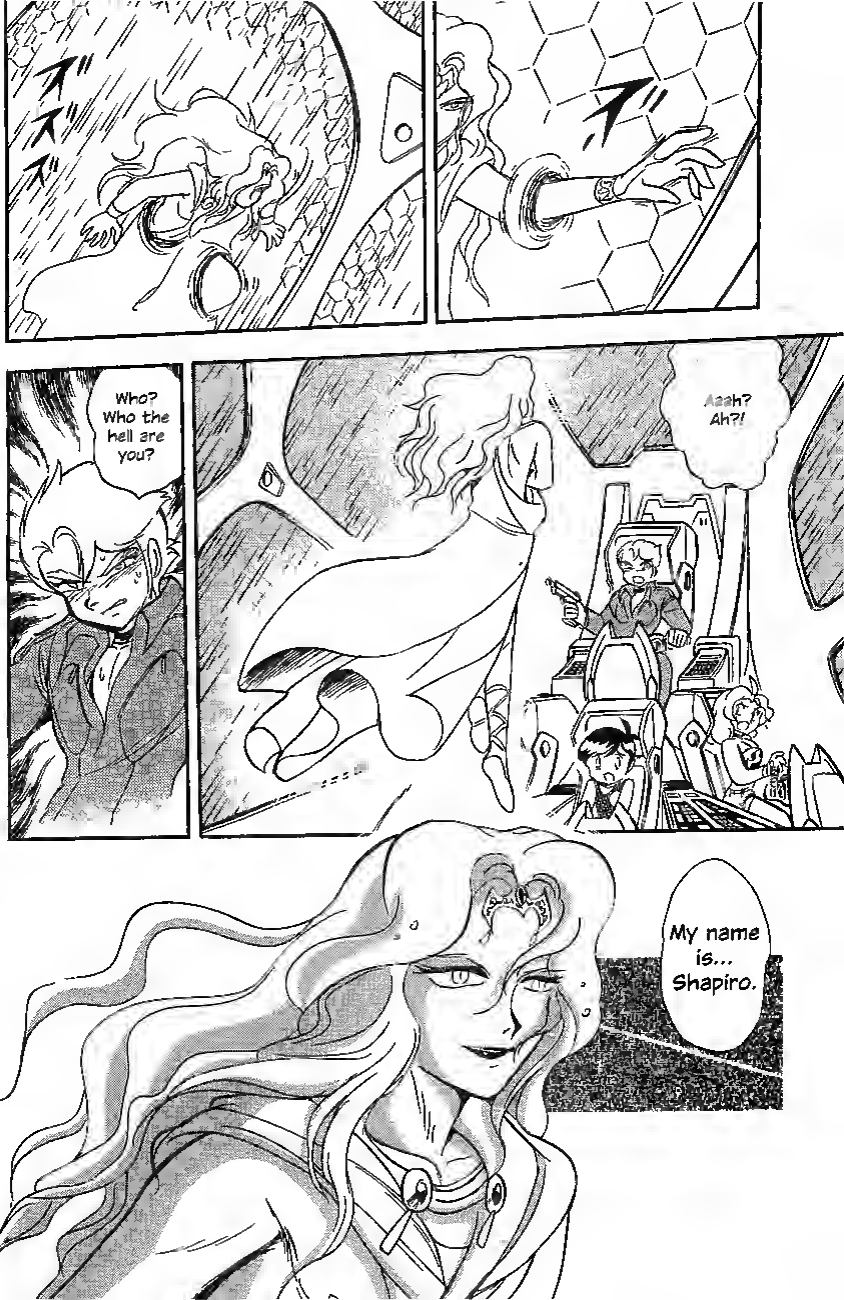
HWOOOH?!

?!
T-The unit's temperature is rising!
Aah!
This is bad...
we can't keep taking this over and over again...

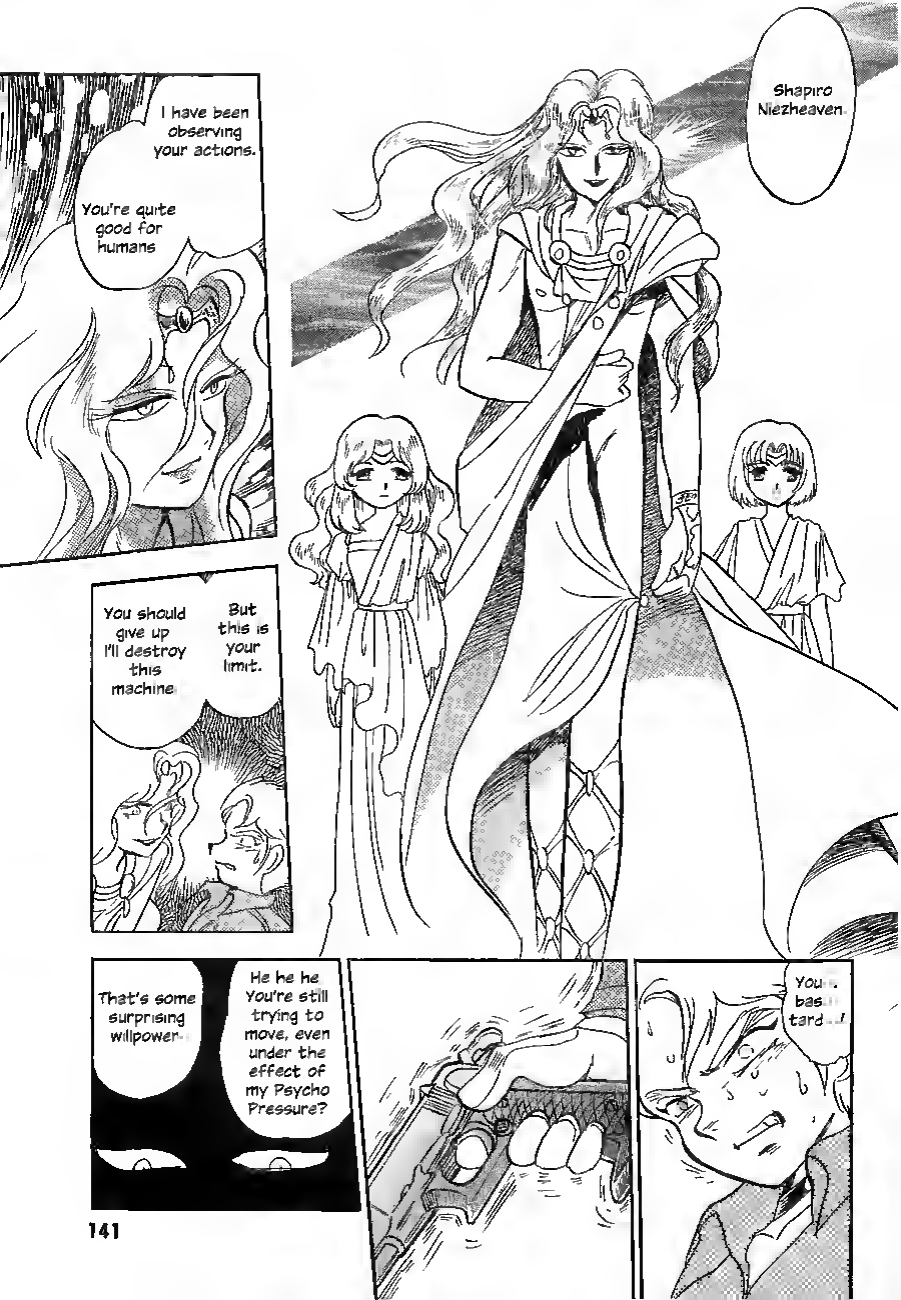
Shou!
What?!

He's standing on top of Dan-couga?!
Impos-sible!

Ugh!
Oh.
Ah!
I can't
move...?



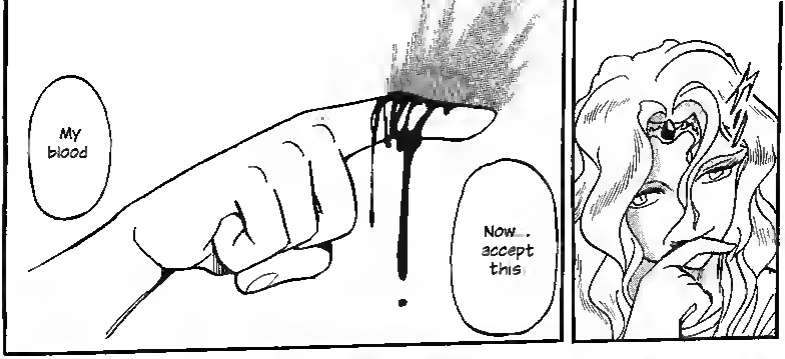
Who? Who the hell are you?
Aaah? Ah?!
My name is... Shapiro.



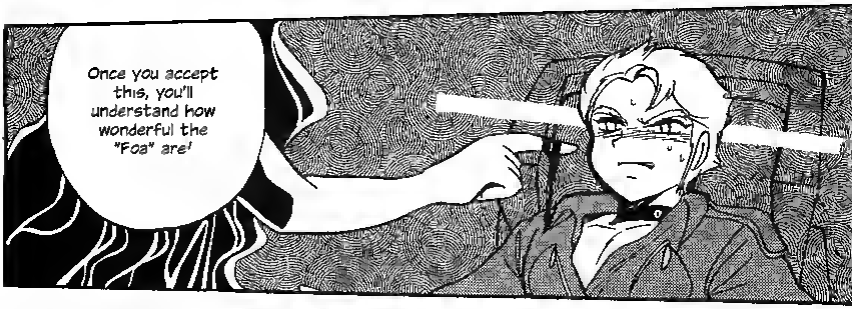
I have been observing your actions.
You're quite good for humans
You should give up I'll destroy this machine
But this is your limit.
That's some surprising willpower...
He he he You're still trying to move, even under the effect of my Psycho Pressure?
Shapiro Niezheaven
You... bas...tard...!

How about this?
You...
He he he You're quite a fine young specimen
You shall become my little brother!
Are you telling me to sell my soul to the "Foa"?!
Are you telling me to turn traitor?
You bastard
What?
?
?
Ha ha ha
Just like these children
Ha ha ha ha ha ha
That's right! Share my blood and become my brother!
はははは
はははは

They'll accept you for whatever you are! That's all there is to it
Sell your soul? No, that's wrong.
The "Foa" are very generous!
You're human, aren't you?!
You're not an alien?
Y-You ?
..And what of it?
...that humanity has no future
It's precisely because you cling to such things...
It doesn't matter where I was born!
I'm one of those you people call "Foa"!
How dare you...
You bas-tard...



My blood
Now... accept this!

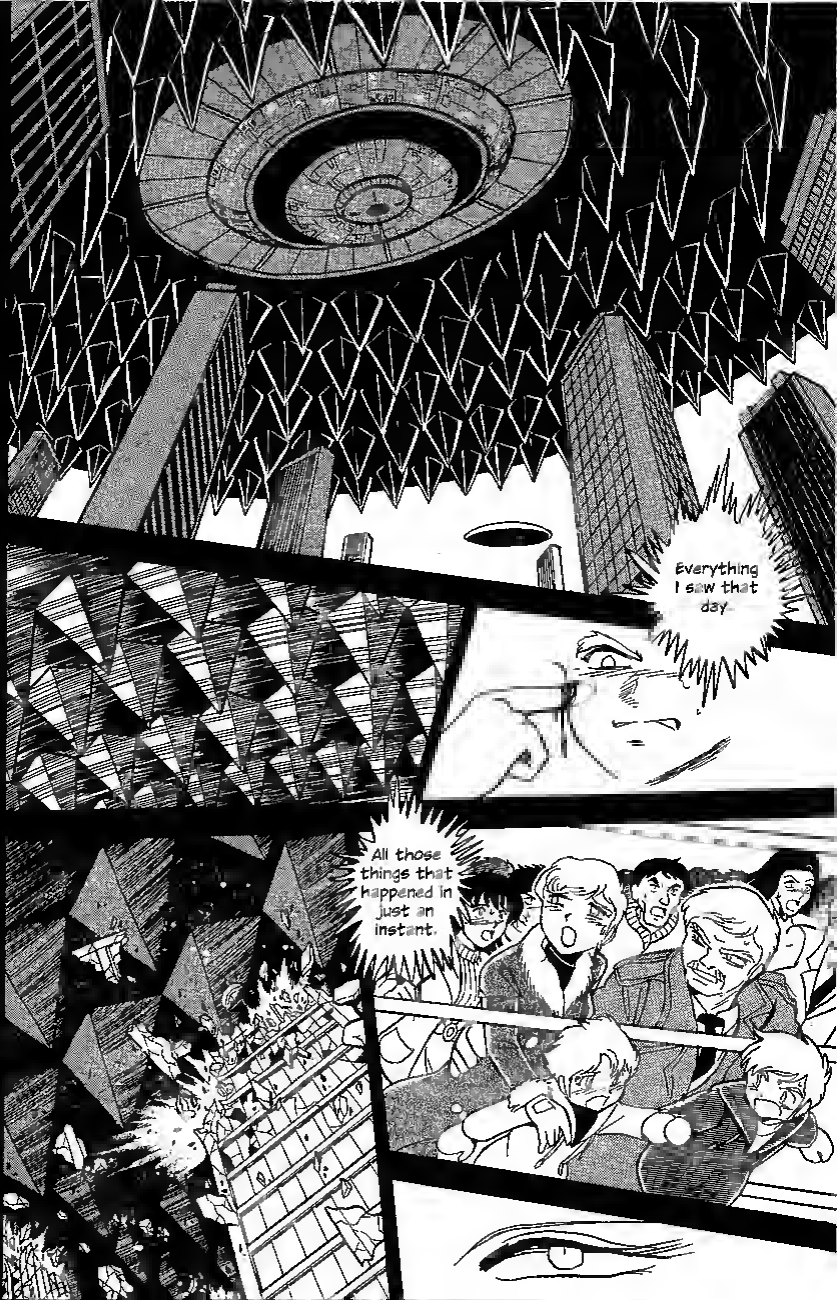


Once you accept this, you'll understand how wonderful the "Foa" are!

D... Don't...
Ah. Ah...

Maybe you don't get it now, but...
... the "Foa" are a necessary step in order to...
... evolve into an even higher being!
Come! Forget about all of these worthless things and join me!

Shou
Me, accepting the "Foa"...?
He he he...
And then, someday...
And join the "Foa"? Me?!
Forget everything?
...forget that day?
You think I could...



Everything I saw that day...
All those things that happened in just an instant.

My father, my mother and my brother!
That day, I lost everything!
There's no way
And you expect me to forget about it?

...that I could possibly...
What?
...forget about it!

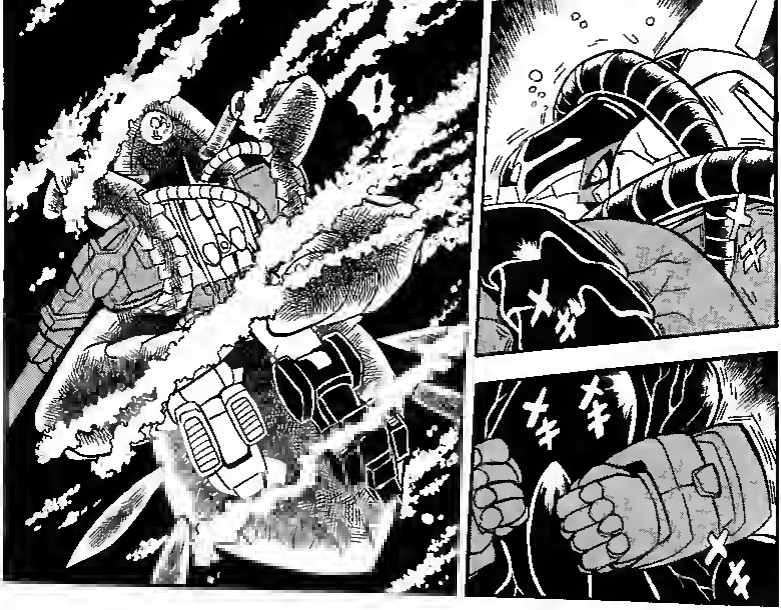
Uwoooh?!

Fuck off!

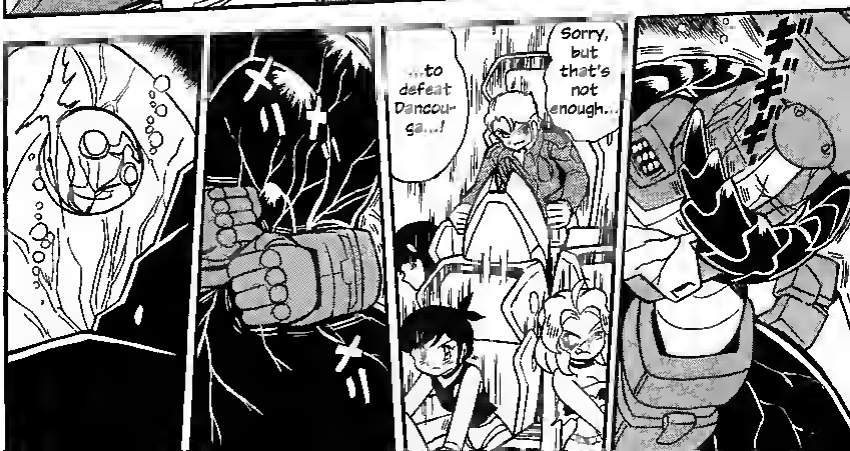
Ha ha ha ha ha...
Uh?
Fwah!

Ha ha ha ha
An illusion!
?
You will become my brother. That is your fate
I'm not giving up, you know
Ha ha ha ha
Ha ha ha ha
Shou!

Geh?
?!



What's wrong? Weren't you going to...
...crush Dancouga to bits?

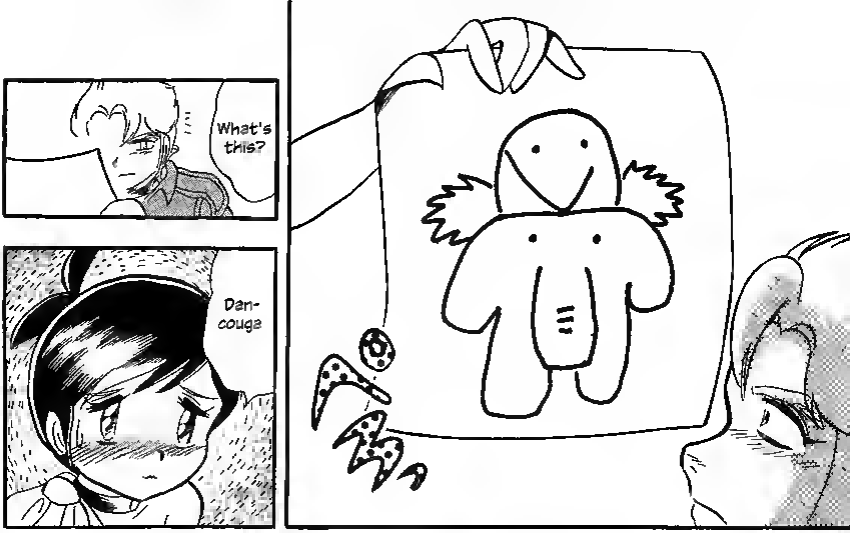


Sorry, but that's not enough...
...to defeat Dancouga...!

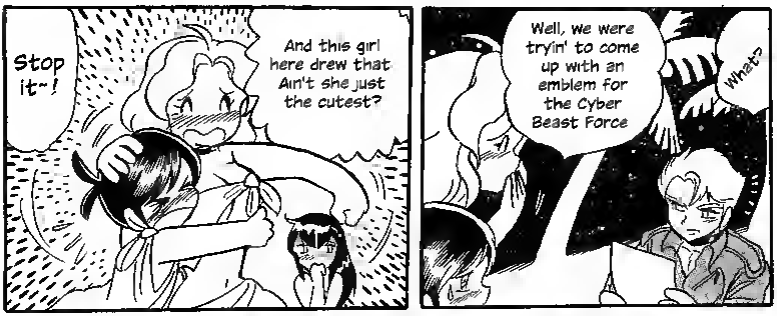
The sudden temperature changes affect you, too!
You held onto Dancouga for too long, idiot.

All right! I'm havin' the biggest fish all to myself!
That's right. You girls scare me.

Because, just by being here, I can feel the tenderness of these girls...
...seeping into my heart little by little
And that...
...and carry them away from my mind.
Scary
...might, some day—
—take those memories that I shouldn't forget...
Hey, Shou-chan! Take a look at this!
No! Stop it, Yuuri!
What is it now?!
Kyahahaha
Wahahahaha



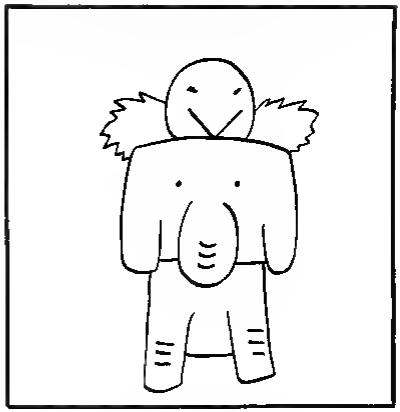
What's this?
Dan-couga

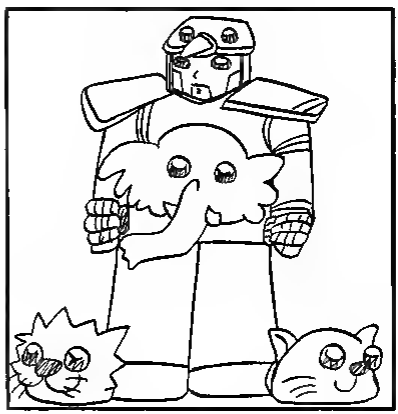


Stop it~!
And this girl here drew that Ain't she just the cutest?
Well, we were tryin' to come up with an emblem for the Cyber Beast Force
What?

ナタナタ
ヒュッ

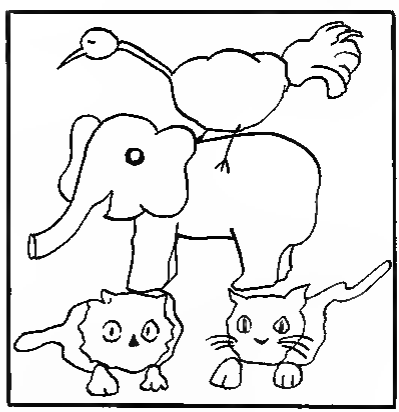
You're right! He's definitely laughing!
Ah...
He's laughin'!
I guess he wasn't amused?
Huh? I was so sure this would work
No, he was Look!
We did it!
All right! We made him laugh!
Next time we're gonna make him laugh out loud!

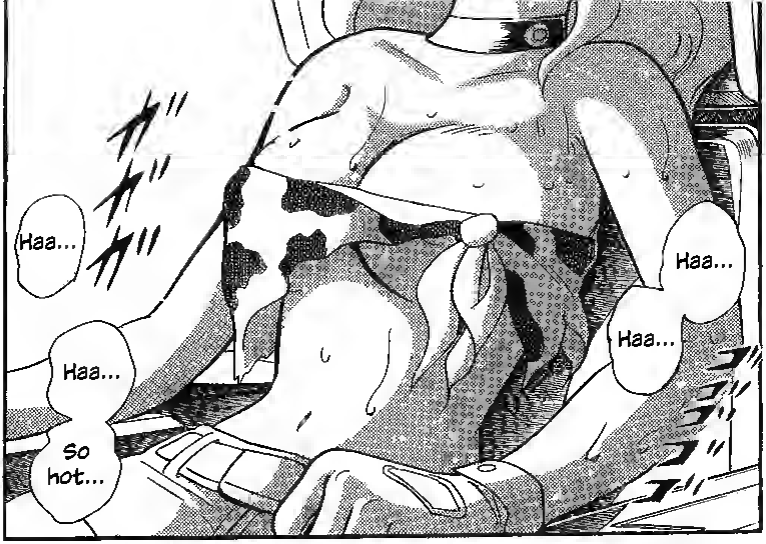




The emblem used in chapter 3 was created with the help of people from the sci-fi convention Dainacon in Nagoya.

Thank you all!



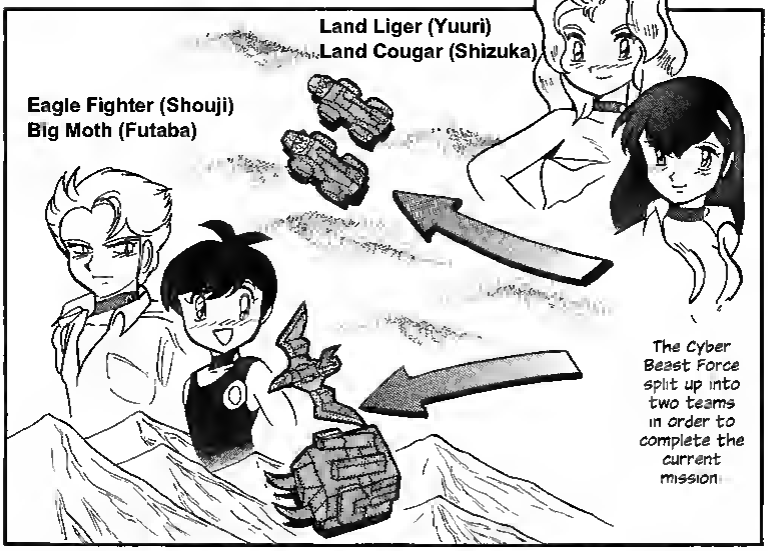


Haa...
Haa...
Haa...
Haa...
So hot...

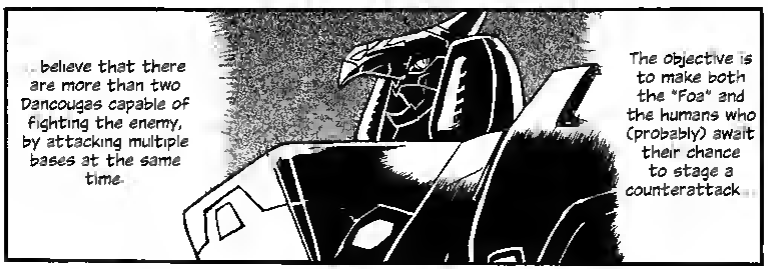
So hot~
So hot.
So hot.

You don't need to say something so obvious!
...We're in the middle of the desert.
Right?
Well, that's because...

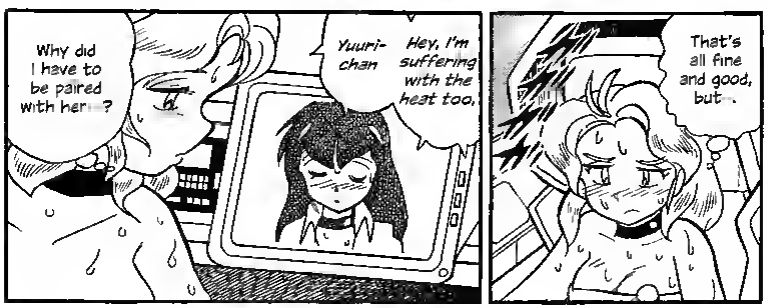
Ch.IV The Two in the Desert



Land Liger (Yuuri)
Land Cougar (Shizuka)
Eagle Fighter (Shouji)
Big Moth (Futaba)
The Cyber Beast Force split up into two teams in order to complete the current mission.



...believe that there are more than two Dancougas capable of fighting the enemy, by attacking multiple bases at the same time.
The objective is to make both the "Foa" and the humans who (probably) await their chance to stage a counterattack.



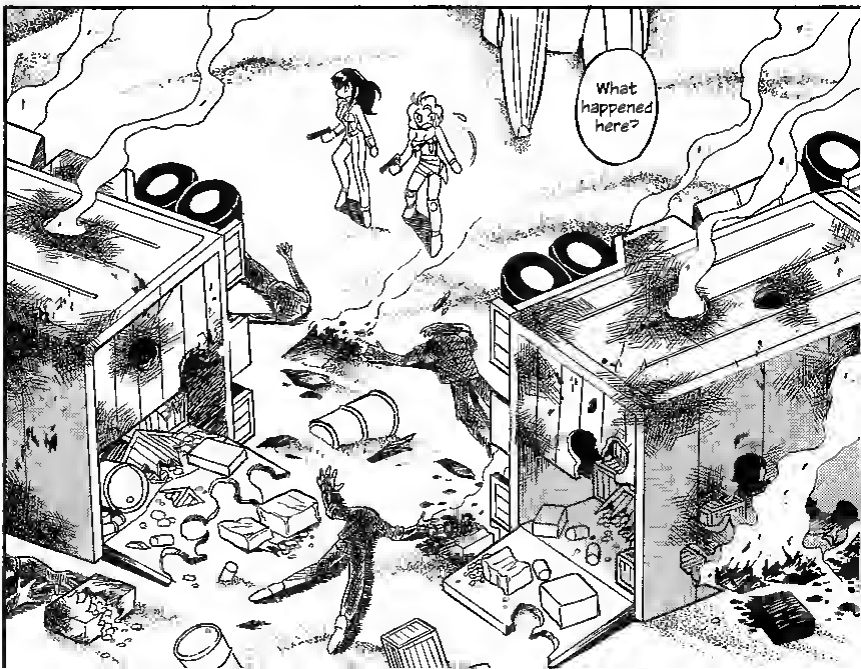
Why did I have to be paired with her...?
Yuuri-chan
Hey, I'm suffering with the heat too.
That's all fine and good, but...

At least let me have the freedom to complain a little!
Even so, it's human nature to feel like complainin' anyway!
...I guess you're right
It feels bad to hold it inside, y'know?
Daaah! I know that!
It's not like complaining about the heat is going to make it go away or anything
So very hot
Ah, it's hot
. It's so hot
So, so hot
Why?
They might be gettin' along a bit too well It could be a problem
You're worried about them? Why?
I already have enough on my mind with Shou and the little one being alone together...
I can't deal with this girl.
Oh, really?
Jeez! I'm not talkin' to you anymore!

It looks like an attack.

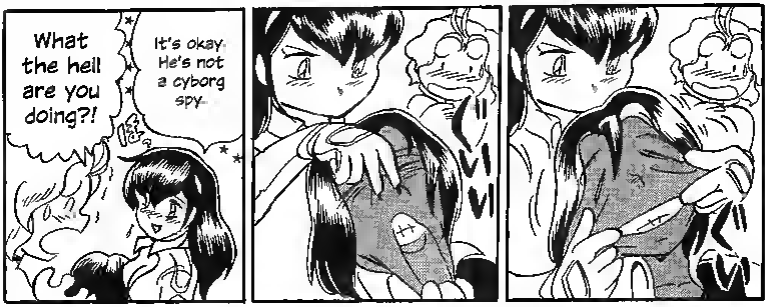
Straight ahead!
Ah! Look!

What?
Huh?

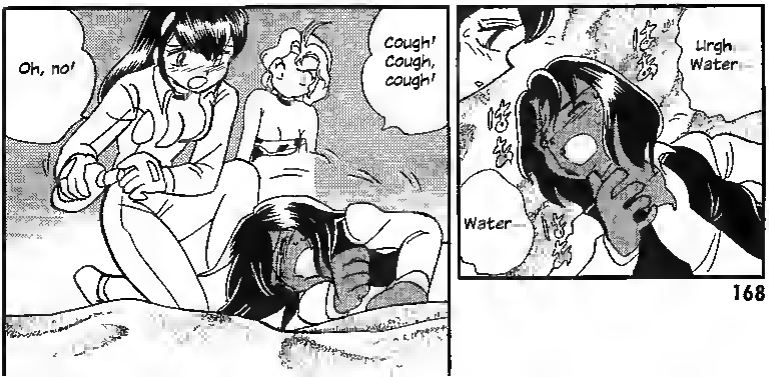


What happened here?

This was a human caravan, right?
How awful!
What?
Aren't there any survivors?
Are they all dead?
Growl
What did you say?
It's a kid! He's alive!
Ah!



What the hell are you doing?!
It's okay. He's not a cyborg spy.



Oh, no!
Cough! Cough, cough!
Urgh Water
Water

We're gonna have to give him the water mouth-to-mouth
M-Mouth-to-mouth?
Of course, moron! He's just a kid and he's unconscious
Well, I guess you're right

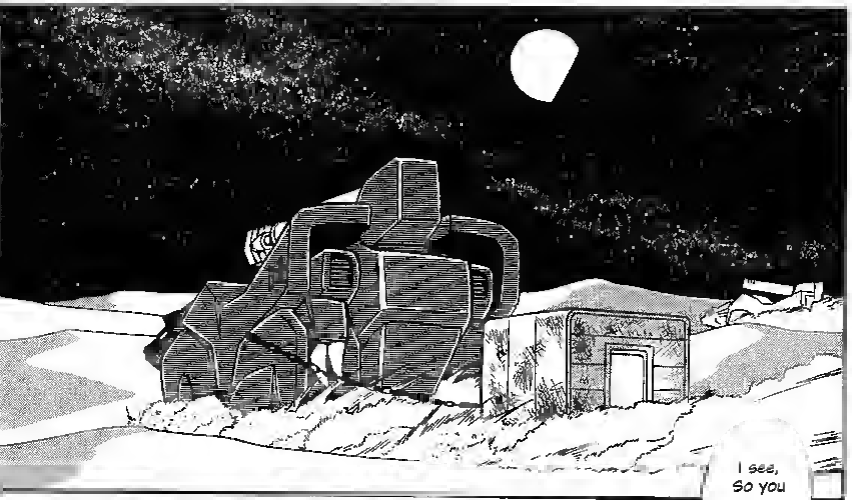
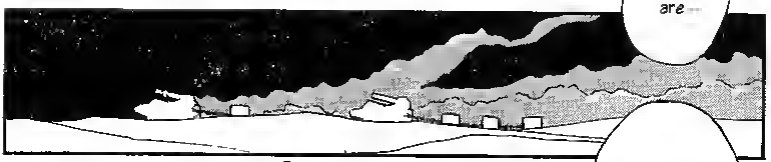
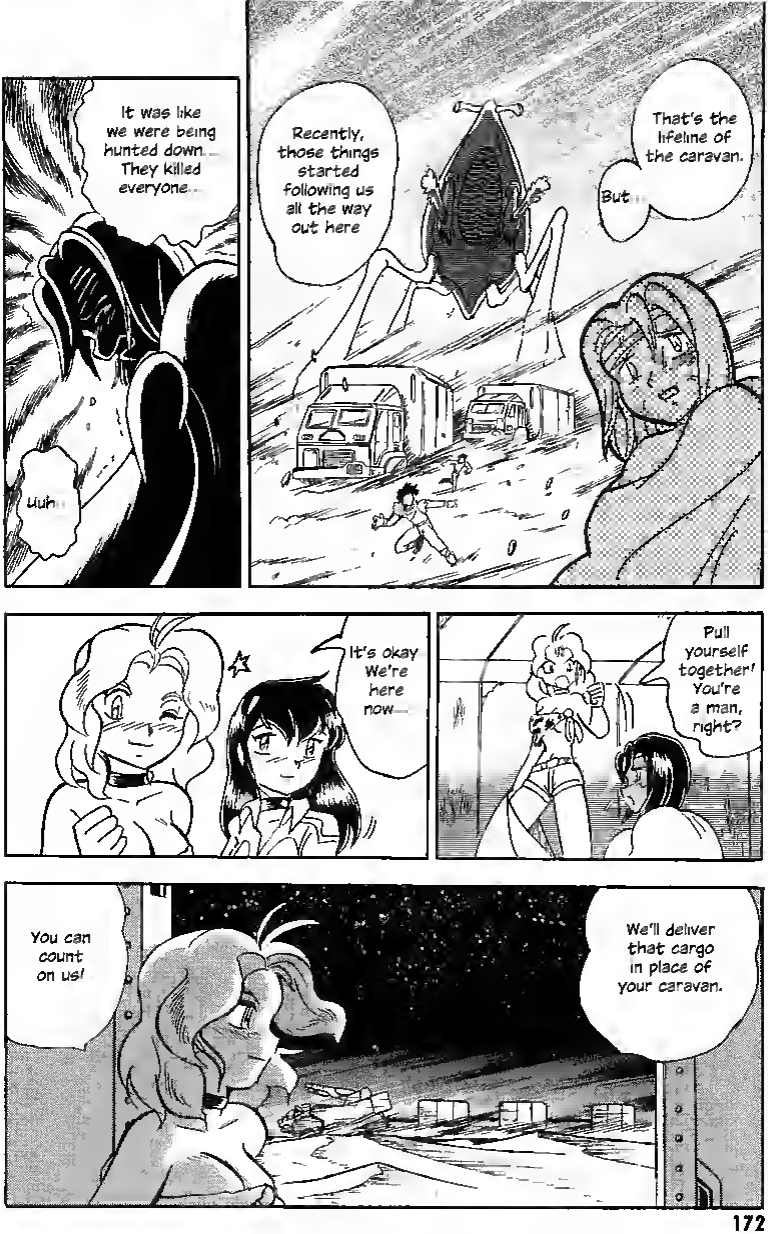
We're friends
No, no
Ya dumbass!
Do you seriously think I'm havin' my first kiss at this age?!
Blush
Ah
I was talking to him, not you.
Moron! Don't cause a misunderstanding!



I see, So you guys are...



...traveling merchants that trade with the people that live in the desert, yes?
ガラガラ
ガラ
Yes
There are several groups of people that still live on the run...
...by weaving their way between the territories of the "Foa" in the desert



It was like we were being hunted down... They killed everyone...
Uuh...
Recently, those things started following us all the way out here
That's the lifeline of the caravan.
But...
It's okay We're here now...
Pull yourself together! You're a man, right?
You can count on us!
We'll deliver that cargo in place of your caravan.

It's not like that!
Are you interested in that boy?
Did he calm down?
Yep
...I see
It's just that... I can relate
...I thought you would refuse because it'll cause us to fall behind schedule
But, when I said that I wanted to take the kid along...
Eh?
You're a much nicer person than I thought...
But we can still make it if we hurry.
Well, it's true that this will cause us to take the long way around our target

What's so funny about what I just said?!
くすくす
くすくす
Chuckle

Wow! Amazing!
Good job!

Then, Miss...
Just call me Yuuri.
Miss Yuuri, you used to be a traveler like us?
Well, yeah
A merchant took me in...
...and I joined his travelin' caravan
We used to sell weapons while avoidin' the "Foa".
Two years ago,
we were surrounded by the "Foa" and it looked like it was the end.
Honestly, it was a tough life...
...but everyone was really nice.

Just then, Shou suddenly appeared
He saved me and took me into the "Zoo"...
What about the other lady?
Shizuka? I don't really know.
I think she's the daughter of one of the scientists that created the Cyber Beasts or somethin'...
I never met her back in the base, though.
Either way, I was raised in a really rough environment.
...so I have no idea what goes on in the head of the daughter of a scholar
Do you two get along? Or not?
Don't ask me that! I don't know!

する
なる

It feels great!
I don't get it
What's wrong? Come on, let's swim!
...how come she can strip naked so easily?
She pushed the mouth-to-mouth task onto me, so...
Ah, there's a guy here too, technically...
ブクブク
Ah!
Hey! Shizuka!
Now's not the time for bad jokes!
ブクブク

Liwaaah?!
What the?!
I... It's a "Foa" Hunter!

Shizuka!

Miss Yuuri...
Where are we?

In the middle of the desert?
What?
She escaped by herself on the way here.

The Pillar will be happy! Kill!
Then we'll earn points!
Azzerman Gomun Zemenos
We'll kill you! Kill!

They brought us into a base, didn't they?
Crap... is this a "Foa" base?

What the hell? Is he crazy?
Is he one of the "Foa"? The commander of this base, maybe?
Azzer-man!
Gern!
Hey, kid! What happened to the Cyber Beasts?
Y'know, our robots?
Well, I guess the "Foa" have all kinds of creatures...
Anyway, right now I need to..
Epdo gam goil!
They ran away, too!
During the fight in the oasis..
What?
Eh?

Aaaah?!
Miss!

You have taken hostile actions.
Very suspicious.

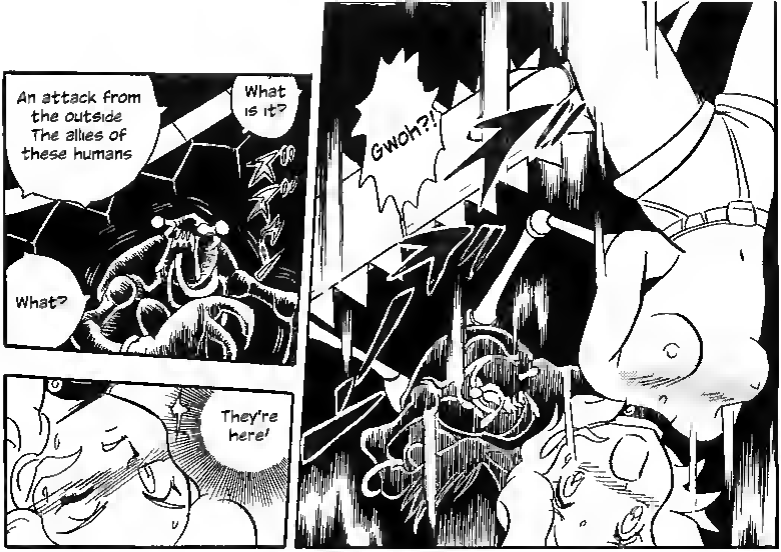
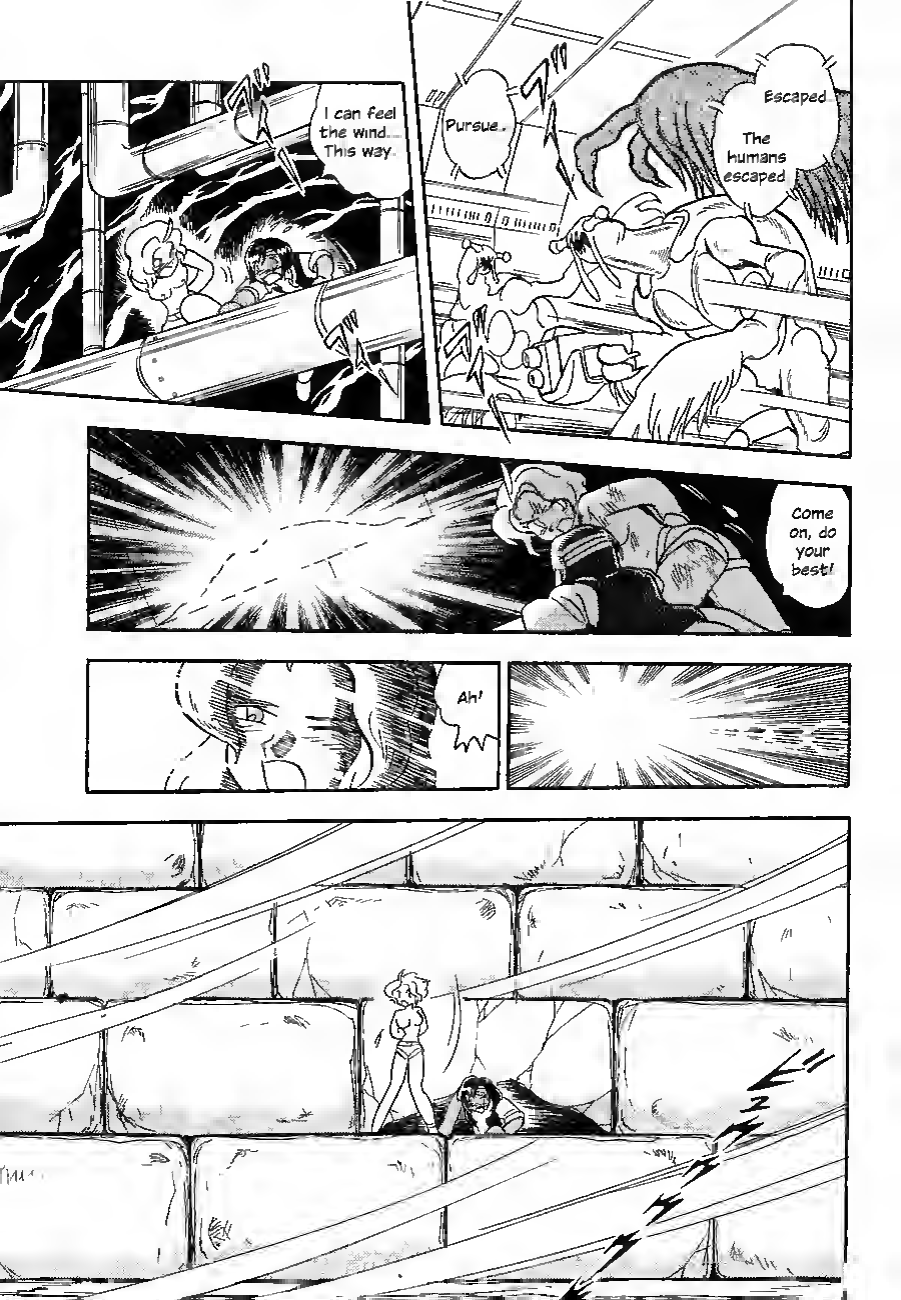
Now look where I ended up..
I'll definitely.

Whoa! Idiot! Cut it out!
How about you just investigate my memories while I'm still alive?!
Uwah!
T-That way, you save some time...
They retreated when we got captured, but they'll definitely come find us!
The Cyber Beasts may act like that, but they're actually pretty smart!
They're goin' to meet up and then come for us!
Shizuka escaped into the desert because she knew that
So I need to buy time
...until then



An attack from the outside The allies of these humans
What?
What is it?
They're here!
Gwoh?!

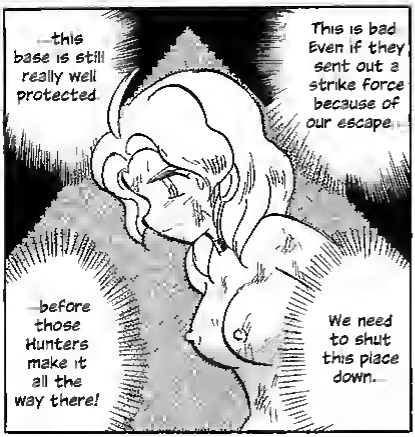
What?
Outta the way, jackass!



I can feel the wind... This way.
Pursue.
Escaped
The humans escaped
Come on, do your best!
Ah!

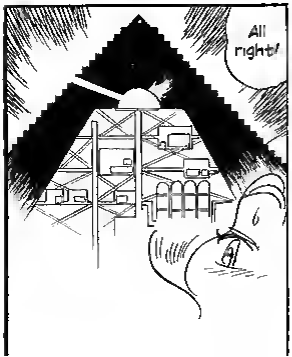
This is a freakin' pyramid!
Look! They're all the way out there!
Whoa!
Shizuka's an expert sniper. Once she has aimed at her target, she doesn't miss!
Eh?
She missed on purpose just now
How awful! Doesn't she know we're still here?!

Uh-oh!
the "Foa" have sent out their Hunters
This is bad!
It's over! There are too many of them...
They can't win against that huge army.

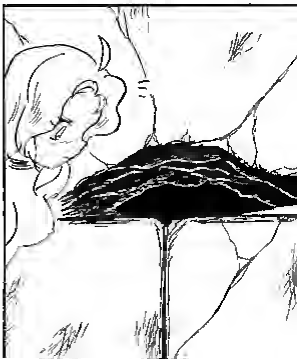


—this base is still really well protected.
This is bad Even if they sent out a strike force because of our escape...
—before those Hunters make it all the way there!
We need to shut this place down...

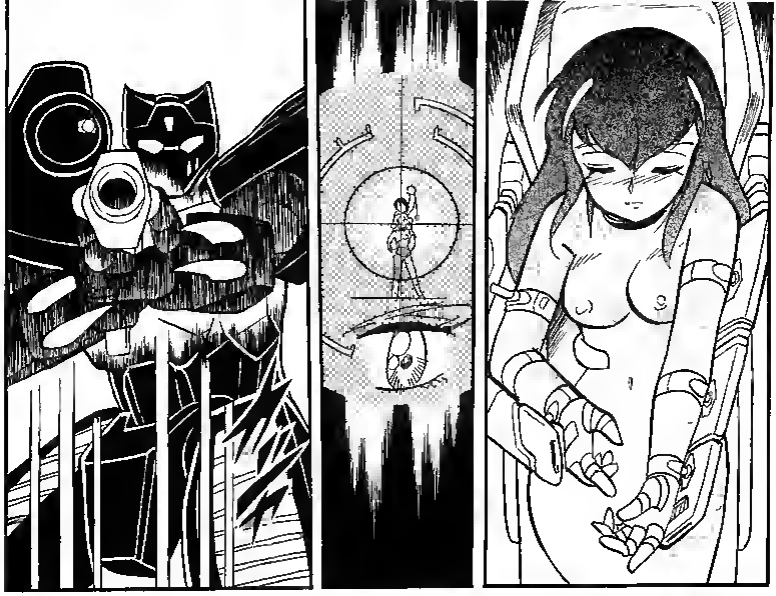
Oops It looks like I might be in some trouble

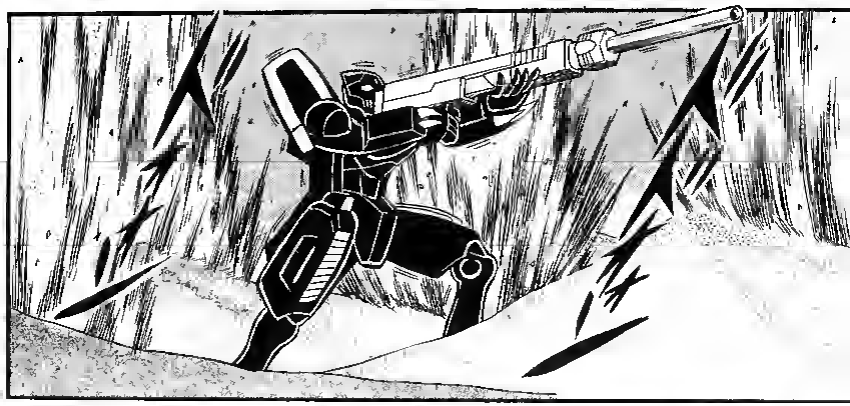


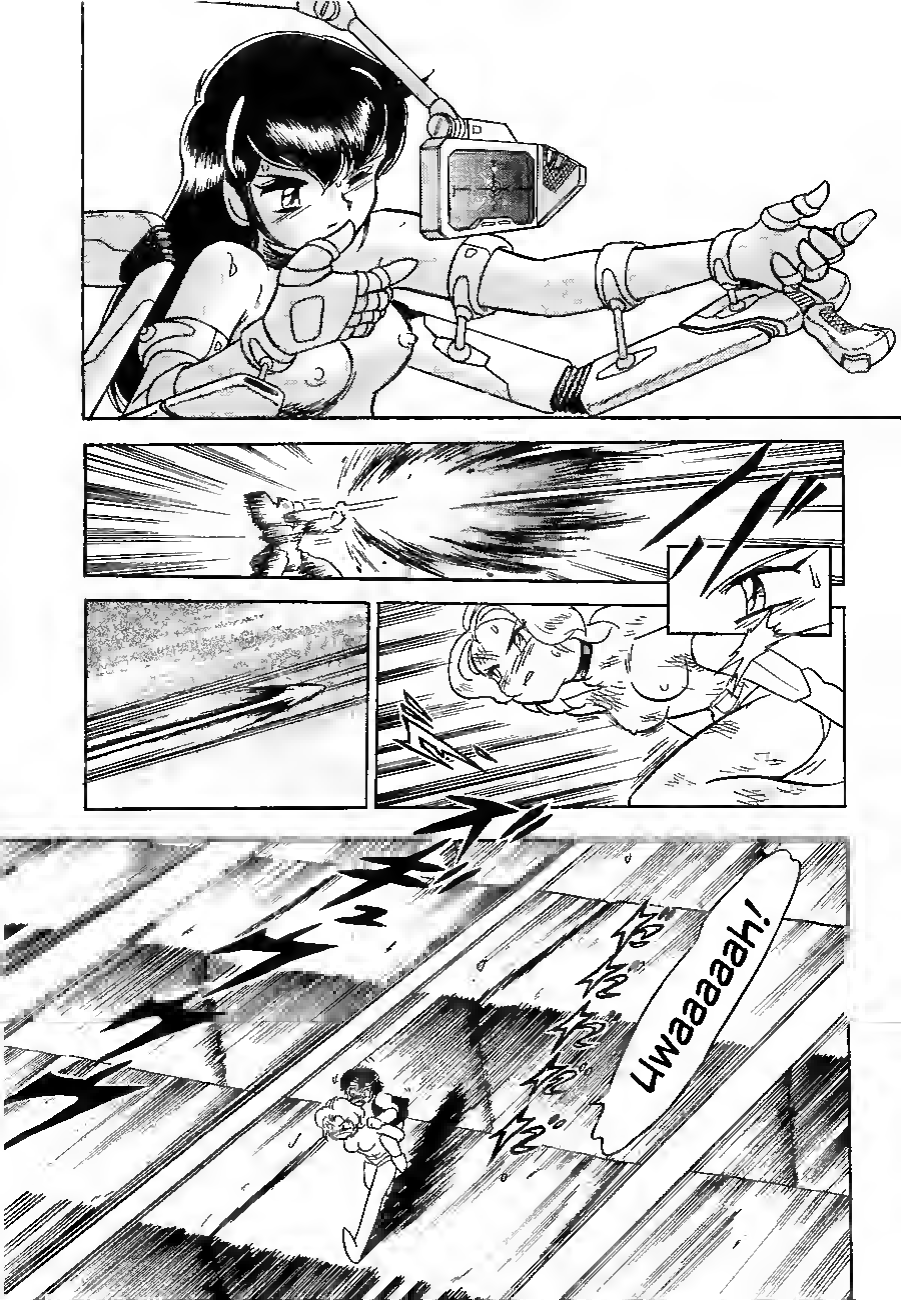
All right!



Kid!
Use your pendant to reflect light as a signal!
What?
And then, show your fist above my head!
Just do it! Hurry!
William Tell, huh?
チャ
チャ
チャ
クス

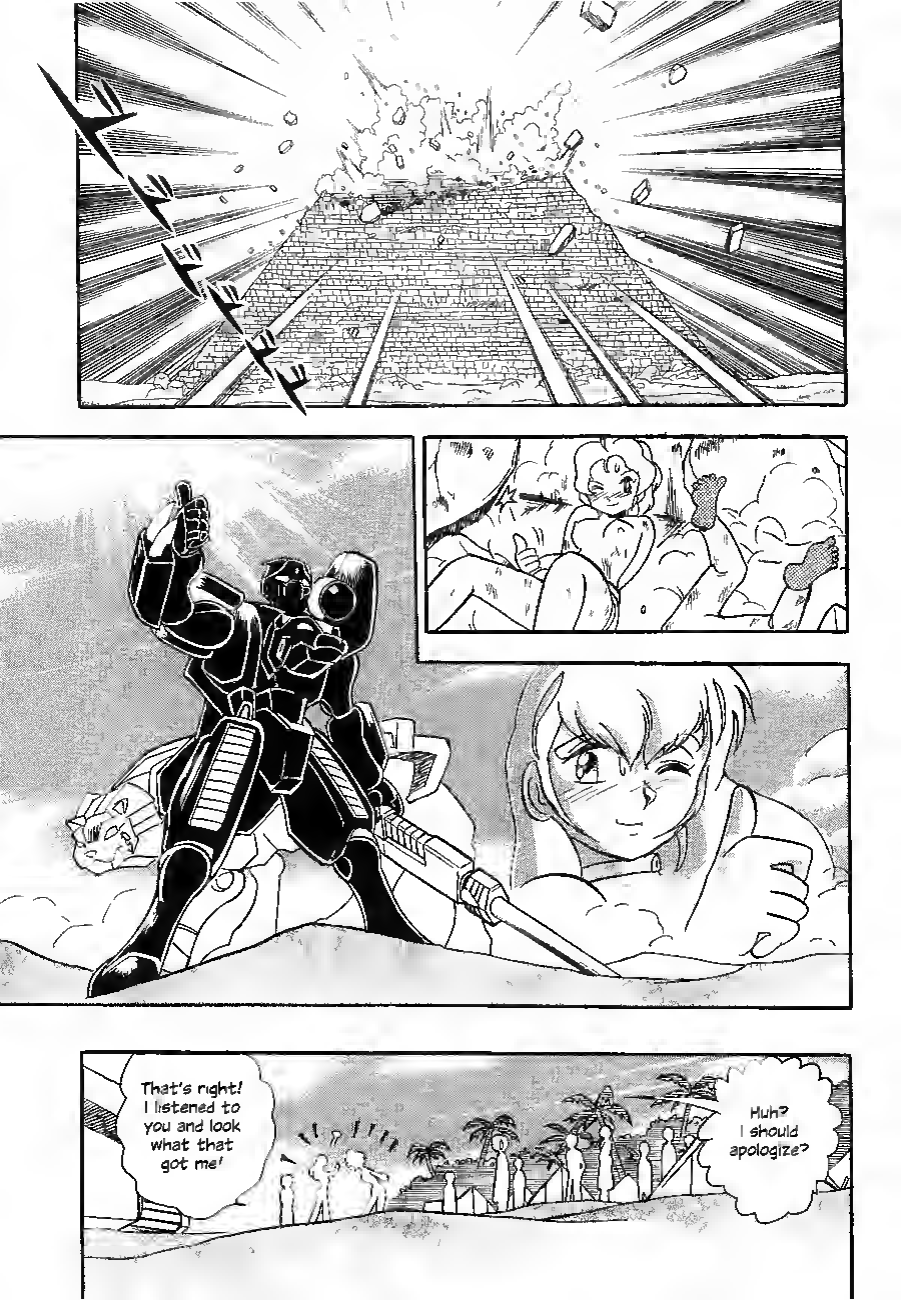






Uwaaaaah!

Uwaaaah?!



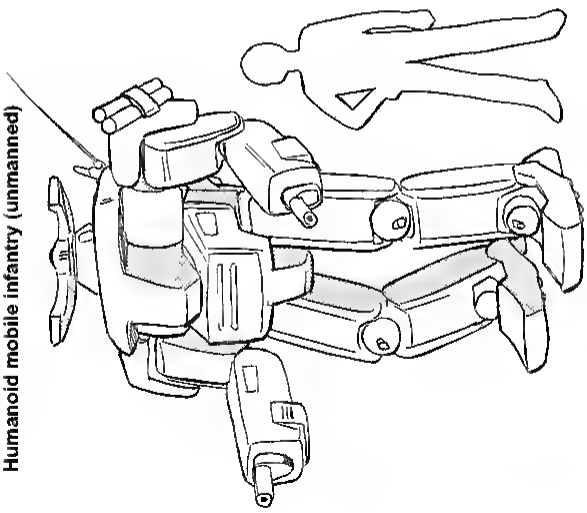
That's right! I listened to you and look what that got me!
Huh? I should apologize?

What are you talking about?!
I thought you were gonna complain about almost dyin'.
Aah... the sunburn?
Now I'm all sunburned!
Oh, really...? Okay, then.
There's no way I would die, of course.
But that was some great teamwork between you two.
He he.
Thanks for everything, ladies
But
The hell we do! Now I'm sure of it!
See? You do get along, after all

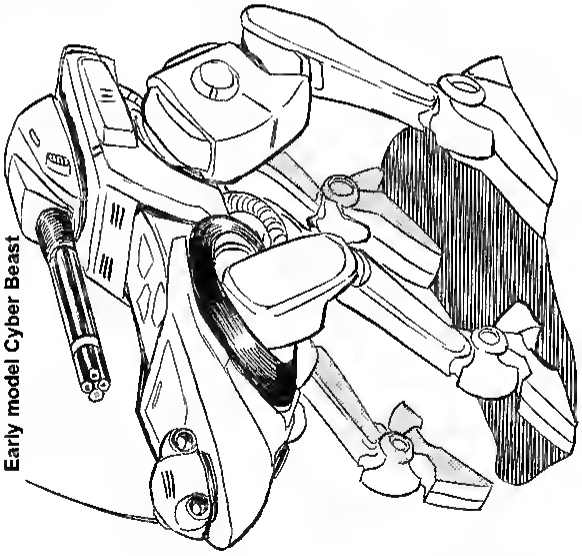
We're comrades, after all.
I do trust her!
"Weird lady"— Why only me...?
Take care!
You too, weird lady!
Goodbye! Ladies!

Mechanic Commentary

Ch. 1: Dancouga's development history



Humanoid mobile infantry (unmanned)



Early model Cyber Beast

Vehicle, beast, man-machine and combination forms. The birth of Dancouga, the giant mobile weapon with four stages, isn't something that happened in just one day. In this section we'll examine the details behind that process.

*

In the early 21st century, humanity was attacked by the invaders known as the "Foa". Among all of Earth's weapons, only one kind was observed to have any effect against the aliens: the Cyber Beasts.

The Cyber Beasts were originally weapons used in local wars that happened frequently in the early 21st century. At that time, the most used weapons in these conflicts were automated robots equipped with high-performance computers, but third world countries that lacked advanced computer chips began to use the brains of wild animals instead.

The "Foa" machines were unable to keep up with the movements of the Cyber Beasts, which were determined by their wild instinct.

However, the Cyber Beasts had a flaw. Because they were equipped with live brains, it was difficult to make them listen to orders, and they often turned feral in the middle of missions.

On top of that, the wild life itself was being exterminated, and the few remaining Cyber Beasts disappeared without dealing a decisive blow to the enemy.

*

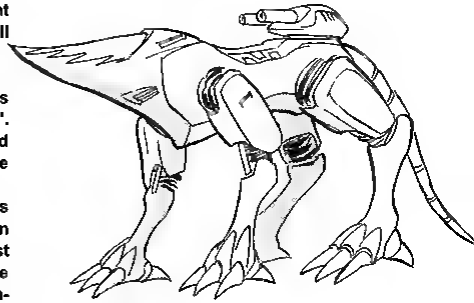
As Earth's defeat became a certainty, several species of wild animals and Cyber Beast data were taken to the "Zoo", an underground anti-alien stronghold in Japan. They began developing new weapons to stage a counter-attack.

*

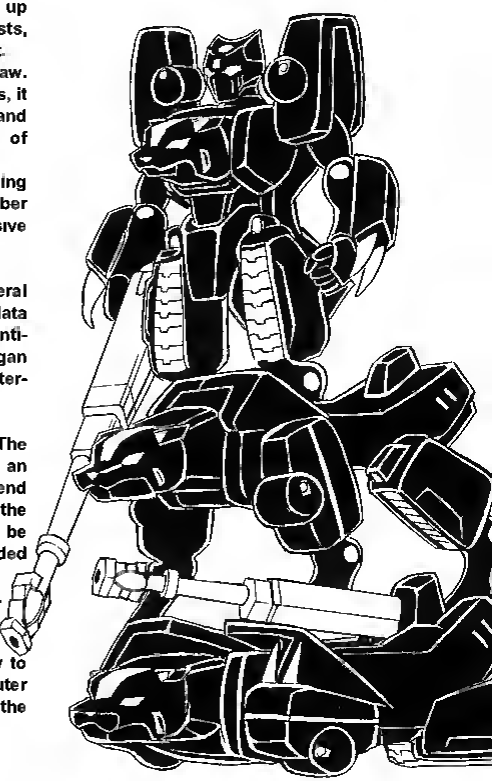
Mankind had many problems to deal with. The first was how to approach the "Foa" for an offensive; they needed to quickly comprehend their culture. The second was how to make the Cyber Beasts into something that could be operated by humans. And finally, they needed to find a way to manufacture more Cyber Beasts and make them more efficient.

Professor Hazuki, the man responsible for the development of Cyber Beasts, solved the manufacture problem by finding a way to copy the data of animal brains into computer bio-chips, therefore no longer requiring the usage of the brains themselves.

"Foa" battle model

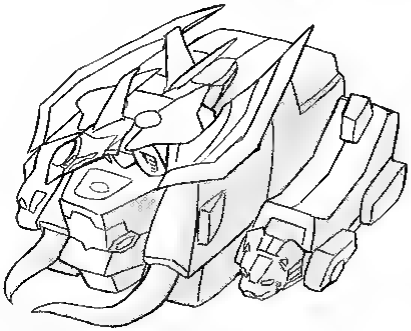


BURN Project unit
(Land Cougar type)



Combination plan #1

A very simple linked form.



Also, because movement on four legs was judged to be inefficient from the standpoint of energy consumption and fuselage durability, vehicle modes were devised where the four limbs would fold in. And thus, the four Cyber Beasts with three forms each, Big Moth, Land Liger, Land Cougar and Eagle Fighter, were completed. (The details on each unit will be available in the next volume.)

At this time, the group of scientist led by Professor Fukamori was able to duplicate an alien graviton generating device, and the single unit was provisionally installed in the Eagle Fighter.

The graviton is an elementary particle that humanity knew of only in theory and hadn't been able to prove real. Emission of these particles allows for flight and generates a powerful barrier. But the output of the Eagle Fighter's engine alone wasn't enough to use the Graviton Generating Device to its full potential. Thus came the idea of the "Joint Mode", to combine the four units together and connect their engines.

At first, the plan was to connect the four units in a simple manner, but computer simulations showed that with a few more simple modifications, it would be possible to combine them in a humanoid form, which had the advantage of superior mobility, which led to the alteration of the plan. And thus the combination mode, which can be said to be the fourth form, the Super Beast Machine God Dancouga Burn, was born.

However, 13 long years were necessary to achieve this.

in order to turn them into manned weapons, inspiration was taken from how humans became one with horses in ancient wars, guiding them by their reins.

To increase the efficiency of the Cyber Beasts, they had the idea of adding a humanoid form. Engineering the form wasn't too difficult since the Cyber Beasts already had four limbs. In this mode, the movements of the pilot are traced and the unit behaves as a giant powered suit. The ego of the beast is repressed by the computer and rerouted into support (this was also made possible by the fact that live brains are no longer used).

Combination plan #2

Similar to a centaur. There were problems with mobility.
